CO2 Using High Performance Change Accumulation at SBC Neil Schechter. SBC

VIEW

If you're interested in hearing about High Performance Change Accumulation (HPCA), come listen to SBC's perspective on this valuable tool. We begin with the evolution of IMS Change Accumulation and the need for batch high performance change accumulation runs at SBC. Hear about the structure and design of HPCA, followed by installation and deployment strategies used at SBC -- including valuable hints and tips you can take home and apply. Finally, listen to the results of SBC's usage of HPCA in production environments.
