E05 Tool Talk: What's New with IMS Tools?
Dan Wardman, IBM Director, Data Management Tools, IBM Silicon Valley Laboratory

IBM continues to be very busy investing in new IMS tools and enhancing existing tools. These products are designed to help manage your IMS systems and databases. Since last year's Technical Conference, IMS Tools has announced four new products and nine new releases and versions of existing products. Be sure to attend this session and find out the latest news and the future directions for IMS Tools.
