

TOC**INDEX****VIEW****E51 V8 Introducing IMS Single Point of Control**
Pedro Vera, IBM Silicon Valley Laboratory

Attend this session for Version 8 enhancement details for enabling a single image configuration. Learn how to set up and use the TSO application to issue IMS commands. Customization and usability issues are discussed. As background, a brief introduction of IMS Single Point of Control concepts is provided.

Before attending this session, you should understand basic IMS V8 and Common Service Layer concepts, which can be obtained by attending sessions E50, IMS V8 Overview, and E53, V8 Common Service Layer Overview, or by prior study.
