

**TOC****INDEX****VIEW****H05 Hands-on: IMS HALDB Conversion Aid**  
*Christian Koeppen, IBM Silicon Valley Laboratory*

Attend this "hands-on" session to actually participate in converting a database from full function to HALDB using the new IMS HALDB Conversion Aid tool. After a short introduction, you'll sign on to TSO/ISPF and begin the conversion. Before attending this session, you should understand basic IMS HALDB Conversion Aid concepts, which can be obtained by attending session E32, HALDB Conversion Aid -- Technical Introduction, or by prior training or experience.
