

# A Business Partner Solution for Cross Industry

A UNIX Platform for Integrated Security Management and Access Control

## GE Security

Picture Perfect

### Business Challenge

Companies and government agencies alike face increasingly complex security challenges and rapidly changing technology in their mission to provide safe, secure and productive workplaces. In addition, within those organizations, security departments require flexible and efficient solutions to manage large, complex operations; while IT departments require reliable, scalable and efficient solutions, easily deployable and offering reduced support costs. Many entities need to meet the Federal Government's mandate for PIV I & II FIPS 201 compliance capabilities with a solution that is capable of managing security on a global scale.

### Solution Description

Picture Perfect v4 Integrated Security Management and Access Control offers comprehensive physical security, Web-deployable Java™ thin client, a customizable interface, a user-defined reporting capability, and XML-based API that allows maximum flexibility. Picture Perfect uniquely offers high reliability with its use of IBM RISC and UNIX®. Picture Perfect allows customers to deploy and centrally administer one security system—reducing deployment complexity while saving money. Picture Perfect offers a PIV I & II, FIPS 201 option that complies with Federal Government specifications. Picture Perfect is backed by GE Security, offering a global footprint of local channel partners, a world-class HQ staff and a brand name that users trust.

### Value Proposition

Picture Perfect provides reliability, scalability and a reduced total cost of ownership (TCO). It leverages the inherent stability and TCO benefits of UNIX that is less vulnerable to virus attacks. Picture Perfect offers over 15 years of proven reliability and can scale more than 10,000 doors worldwide. Its exclusive Java thin client offers a flexible, customizable interface, which is compatible with existing IT infrastructures.

### Company Description

GE Security, Inc., a wholly owned, indirect subsidiary of the General Electric Company (NYSE: GE), is a leading supplier of security and life safety technologies, with operations in more than 35 countries and \$1.8 billion in annual revenue. Leveraging a broad portfolio of advanced world-class technologies and best-in-class partners, GE delivers real-world, end-to-end security solutions that help protect people, assets and communities. GE is also the #1 choice for access control, used by more than half of the Fortune 100 companies.
