

A Business Partner Solution for the Industrial Sector

An integrated ERP Solution Enabling Automotive Companies to Fully Integrate their Customers and Suppliers

Infor Global Solutions

Infor ERP TRANS4M

Business Challenge

This solution is targeted for automotive manufacturing companies with the following challenges:

- Improving their lean manufacturing
- Struggling with Repetitive Manufacturing & Manufacture to Stock (MTS) business processes
- Satisfying container driven shipment scheduling and shipment execution processes
- Integrating financial systems with their manufacturing and inventory systems

Solution Description

Infor's ERP TRANS4M integrates data, communication and control for every facet of automotive manufacturing production: master production schedules, order processing, material requirements planning, production scheduling and execution, detailed lot tracking, inventory management, multiple production-reporting methodologies and many more functions. ERP TRANS4M connects sales, marketing, manufacturing, financials and service.

Value Proposition

Infor ERP TRANS4M is a proven solution that provides exclusive focus on the repetitive business rules and business processes of automotive companies. Such features as immediate visibility of performance, work in progress, management costing, traditional shop-floor execution, integrated bills of materials, routings, part-number based process, point of use backflushing, pay point and non-pay point operations directly support lean manufacturing initiatives. Infor ERP TRANS4M uses specialized technology, developed expressly for automotive manufacturers, to help your facilities run faster, leaner, more accurately, more predictably and more successfully, whatever changes the marketplace imposes and wherever you operate your business.

Company Description

Infor delivers fully integrated enterprise solutions for a wide range of industries, as well as best-in-class, stand-alone products that address the essential challenges its customers face in areas such as enterprise resource planning, supply chain planning and execution, customer and supplier relationship management, asset management, product life cycle management, financial and performance management, and business intelligence. With more than 8100 employees and offices in over 100 countries, Infor provides enterprise solutions to more than 70 000 customers.
