SpatiaX
sxDOCS

IBM

Solution Description

SpatiaX sxDOCS brings simple-to-use, document management capabilities and seamless line-of-business integrations to small- and mid-size organizations, without sacrificing the important features that define an enterprise-class document management solution. Incorporating IBM Content Manager, sxDOCS delivers a full-featured document management system in a true turnkey package that eliminates complex installation, configuration and support and can have organizations up and running in less than a day.

Features & Benefits

- Easy to install and configure
- Small computing footprint
- Straight-forward licensing model
- Powerful ECM functionality
- Windows Explorer-based desktop interface
- Ajax-based web interface
- Seamless integration with existing applications

Value Proposition

SpatiaX sxDOCS is a turnkey document management solution built around IBM Content Manager that includes key LOB integrations, enabling customers to leverage the power of enterprise content management (ECM) without disruption to established business practices. The solution is designed from the ground up to be easy to install, configure, deploy and use. sxDOCS does away with the need for significant end-user training and dedicated support resources without sacrificing the key features and functionalities that organizations have come to expect in an ECM solution.

Company Description

SpatiaX is a software company specializing in the design, development and marketing of information solutions for the enterprise. Leveraging key technologies such as content management, computer-aided design (CAD), geographical information systems (GIS), workflow and collaboration, SpatiaX solutions enable users to easily access disparate data sources and applications across the enterprise in new and powerful ways.
