

# A Business Partner Solution for the Cross Industry Sector

*Fast Input of Indexed Images to IBM FileNet Content Manager*

---

## Datacap Inc.

*Datacap Taskmaster Capture System*

---

### Technology Description

Datacap Taskmaster data and document capture software transforms document images into information, improving efficiency and accuracy while reducing document cycle time and data entry costs. This client/server, rules-based capture software provides highly flexible solutions for both automated document indexing and forms processing for all types of documents, including invoices, claims, applications, surveys, business reply cards and bills of lading. Taskmaster enables remote scanning, indexing and administration from a browser and integrates with FileNet Content manager, all leading databases, ERP systems (SAP certified), and all document scanners.

### Features & Benefits

- Automates manual data entry of indexes for images in FileNet Content Manager.
- Concurrent user licensing, not volume-based pricing.
- Rules-based architecture makes configuration and implementation rapid and less expensive than competing offerings.
- Full forms processing product – captures all documents and all data types (handprint, typed print, barcode, checkbox).
- Tight integration to FileNet Content Manager.

### Value Proposition

Datacap Taskmaster automates input of scanned images, eliminating expensive and error-prone manual data entry. Taskmaster manages the entire capture process, including scanning, image enhancement, recognition, automated validations, verification and delivery of indexed images into FileNet Content Manager. Data can be easily integrated into medical claim adjudication, accounts payable, tax return processing systems and other line of business systems.

Datacap Taskmaster integrated with FileNet Content Manager is being used by large corporations and government agencies worldwide to automate the processing of documents for industries such as finance, insurance, manufacturing, healthcare, transportation, education and government. Datacap Taskmaster has been certified capable of processing more than one million documents per day.

### IBM Segment

- Enterprise Content Management

### Business Function

- Import/Export

### Target Industry

- Cross Industry
