

## Maximize your Informix investment with the flexibility of WebSphere.

Want to make e-business better? Watch our Webcast, "IBM Informix and WebSphere: Integrated for e-business on demand" today.

 [Watch now](#)

There's never been a better time to move into the future with Informix®. As part of our continued commitment to this scalable, reliable platform, IBM has now built unprecedented integration capabilities between Informix Dynamic Server (IDS), Version 9.4 and WebSphere® Application Server 5.0. Learn how the great combination of Informix and WebSphere can benefit your business during our exclusive Webcast.

### Discover a new integrated solution for e-business.

During our Webcast, "IBM Informix and WebSphere: Integrated for e-business on demand," you'll learn how companies can Web-enable their businesses with new IBM Informix and WebSphere Bundles by combining the flexibility and advanced features of WebSphere with the power of Informix.

 Register at [www6.software.ibm.com/reg/informix/ifxieod-i](http://www6.software.ibm.com/reg/informix/ifxieod-i) and view it today.

By extending IDS with WebSphere Application Server and WebSphere Studio, we've created a complete platform for high-volume, secure online transactions. As a leader in e-business application development and deployment, WebSphere has been recognized by industry experts like *eWeek*, which gave WebSphere Application Server 5.0 its *2003 eWeek Excellence Award*.

So watch our Webcast today and learn how the seamless compatibility between Informix 9.4 and WebSphere can enhance your e-business initiatives.

Sincerely,

Janet Perna  
General Manager, Data Management Solutions
