

IBM Analytics Services

Offering Catalog

Expertise to define, implement, realize and grow your IBM Analytics Solutions!

From Industry solutions to specific technology implementations, our Analytics services offerings include flexible, end-to-end services that are designed to help drive rapid, positive results. We deliver proven, repeatable value throughout all the phases of your analytics lifecycle.

This comprehensive portfolio of offerings coupled with our end to end approach enables us work alongside you to achieve your goals and provide you with IBM's unmatched expertise and proven practices gained from thousands of successful solution deployments worldwide.

What we offer

To provide a delivery approach to support your solutions, business objectives and budget, the Analytics services team has developed numerous services offerings and workshops that can be executed any time from pre-sales to post-solution delivery. Examples include:

- Strategy, Roadmap and Governance Workshops
- Rapid Deployment Jump Starts and Quick Wins
- Migrations and Upgrades
- Project Health Checks and Performance Tuning
- Implementation Services
- Post Deployment Services

We will work with you to determine the most effective engagement model. We have a flexible engagement model that can be delivered on site, remotely or a combination of both. If your solution is on premise, on the cloud or a hybrid we can partner for your success. Providing long-term self-sufficiency through our mentored and parallel working approach is our number one goal.
