

IBM Digital Experience Overview

The Building Blocks of Competitive Value in the Cognitive Era

#NewWayToEngage

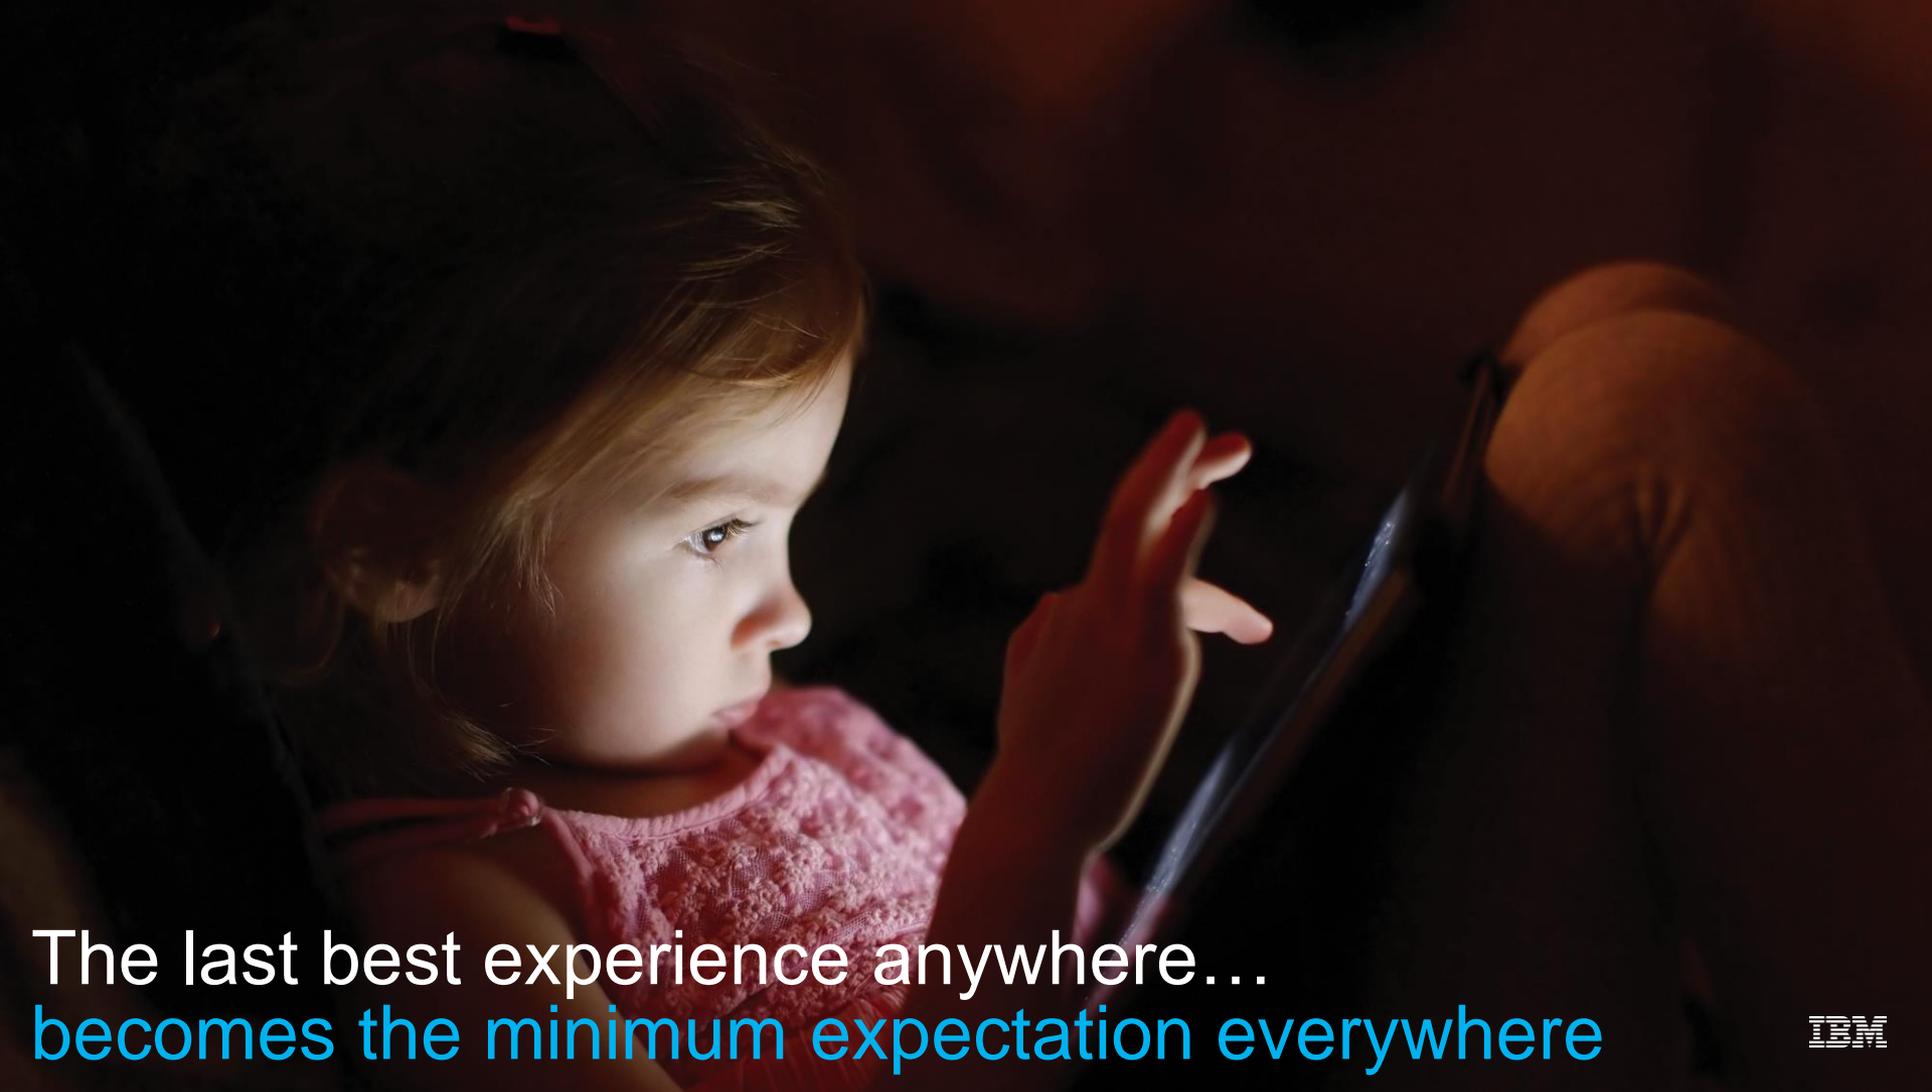

Anthony Fiorot, (Tony), Global BUE, Digital Engagement Solutions

June 2016

A person is seen from behind, hiking on a rocky trail. The background shows a lush green forested valley under a blue sky with scattered white clouds. The text is overlaid on a semi-transparent teal rectangle.

The traditional
boundaries are dead.
Engagement is the new
competitive battleground
The focus is now on
Human-to-Human
interactions.

The last best experience anywhere...
becomes the minimum expectation everywhere

Continuous disruption is the new normal:

“New competitors from different industries are entering our market. We need to look at what these companies are doing, rather than watching how other enterprises in our industry behave.”

Gustavo Hernan Garcia, HR Director, ICBC, Argentina

Business is being transformed on three technology enabled dimensions

Data

The new natural resource

- Data is the new basis of competitive advantage
- Sophisticated analytics across disparate data sources will drive business outcomes
- Time value of data will enable “speed of insight” and “speed of action” as core differentiators

Cloud

Enables new business models

- Cloud’s “game changing” attributes revolutionize industry value chains, forcing companies to embrace new business models
- Cloud is enabling transformation of IT and business processes into digital services

Systems of Engagement

Redefines customer relationships

- Mobile connectivity, access and participation are growing rapidly
- Social media is quickly becoming the primary communication & collaboration format
- Mobile and social enhance speed of responsiveness and personalization

In this new era, forward looking businesses need to create...

Workforce (includes Partners)

an Engaged Workforce

Engaged Relationships

Consumers, Citizens, Businesses

Systems of
Engagement

A photograph of a sailboat on the ocean. The sail is white and takes up the left half of the frame. The water is dark blue with small waves. The sky is a pale, overcast grey. The boat's deck and rigging are visible in the foreground.

“We’ll transition from selling products to selling customer experiences.”

Javier Mas, CMO, Caixabank, Spain

IBM Point of View on Engagement:

Empower people - Activate a digital ecosystem for customers, employees and partners

- Engage people as unique individuals by putting them at the center to tap into the power of collective knowledge.

Understand people - Apply analytics to gain actionable insight from social data

- Business analytics and behavioral sciences allow you to personalize interactions, build relationships, predict trends and innovate faster.

Trust people - Harness a transparent and authentic way of working

- Create a trusted social approach that enables open and authentic engagement while protecting the enterprise.

IBM Digital Experience: #NewWayToEngage

A personalized online business solution/framework that allows employees, customers, and partners a single point engagement for contextual interaction with persuasive content, people, process and applications

Introducing Shimano Dura-Ace 9000 Series

By: Shimano
Date: 3/15/13

Recommend 1.8k Tweets

Dura-Ace has represented the state of the art in bicycle components since 1973. The all-new 2013 Dura-Ace group is the result of 40 years of development and innovation, tested to the limit at the highest level of competition in road racing, time trials and cyclo-cross. Reduced shifting effort lets you concentrate on riding. More control thanks to improved ergonomics. Unbeatable reliability gives you absolute confidence.

What the analysts say?... Digital Experience Solution

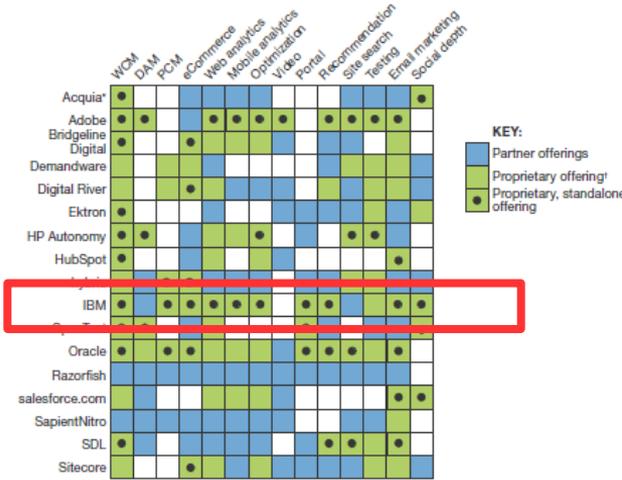

BUSINESS VALUE HIGHLIGHTS

Companies in the study enjoyed an average ROI of over 500% and payback within 7 months. Benefits include:

- Improved business productivity by 11%
- Reduced TCO by 47%
- Enhanced user experience drove up user productivity by 13%
- Total benefits exceeded \$300,000 per 100 users annually

Figure 4 Digital Experience Platform Matrix

KEY:
 ■ Partner offerings
 ■ Proprietary offering†
 ● Proprietary, standalone offering

Forrester definitions:

- Proprietary offering: vendor-owned platform component.
- Partner offering: platform component sourced from a third party (regardless of completeness of integration).
- Standalone offering: platform component that is a standalone product and may also combine or integrate with other component(s) from the same vendor.

*Acquia's platform includes proprietary components (Acquia tools, modules, and services) and nonproprietary components (open source Drupal WCM and modules).
 †Platforms that offer proprietary and third-party options for a specific capability are in the "proprietary" category.

As of 31 January 2014

IDC Report on the value of IBM Digital Experience Solutions

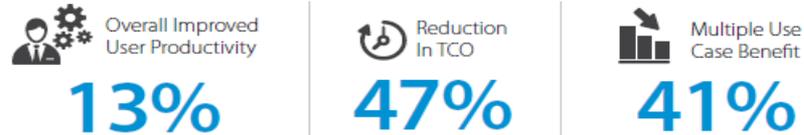

“Customers looking to deploy intranets, extranets, or public-facing Web sites should consider IBM’s Digital Experience software”

“The good news, as our TCO study shows, is that most organizations can justify the cost of IBM’s Digital Experience software based on quantifiable hard dollar savings within a relatively short period of time”

IBM Digital Experience Software Business Value Highlights

Key Performance Improvements Realized by Organizations Using IBM Digital Experience Software

Business Value Benefits – Average Annual Benefits per 100 Users of IBM Digital Experience Software

A tall, grey metal signpost stands against a bright blue sky filled with scattered white clouds. The signpost has seven white, arrow-shaped directional signs attached to it, each pointing in a different direction. The word "QUESTIONS" is written in large, white, sans-serif capital letters across the right side of the image, partially overlapping the signpost and the sky.

QUESTIONS

A futuristic bridge with blue-lit arches and a road leading into the distance. The bridge has a series of blue-lit arches that create a sense of depth and perspective. The road is paved with dark asphalt and has white dashed lines. The sky is a deep blue, suggesting dusk or dawn. In the background, a city skyline is visible.

IBM Digital Experience is a **PLATFORM** for change,
harnessing organizational **synergy** and
leveraging **cognitive, data, cloud** and **analytics**

Thank You!
