### Why Lotus Connections is the web 2.0 tool that Sharepoint can only claim to be.

Martha Mealy | 28 May | Tags: [sharepoint](#) [lotus-connections](#) [web20](#) | Comments (0)

Don't just take my word for it. Read this CIO magazine article, [Understanding Lotus Connections](#), IBM's version of web 2.0 for the enterprise. It is wonderful to have a 3rd party voices discussing the differences between Lotus Connections (a social software, community collaboration offering) and Microsoft Sharepoint (a document centric offering).

Hi All:

We're continuing to develop the promotional materials for the worldwide "Meet ZetaBank" campaign. The latest addition is this basic banner, which can be used on the web, as letterhead, and on printed materials. The name of specific city or country in question would appear in the banner.

The documents have been sent by UPS. Here is the tracking number: 1ZR005W5NW00503168

Thanks --

# Añada Google Gadgets a su Página de Inicio

The screenshot shows a Facebook home page with a blue header. The navigation bar includes 'Home', 'Updates', 'Search', and 'Administration'. A search box is on the right. The main content area is divided into three columns:

- Communities:** Lists 'My Communities' with three items: 'Business Partners' (Frank Adams | 29 Aug), 'Road Warriors' (Frank Adams | 18 Aug), and 'Roaming Ramblers' (Robert Zip | 23 Aug 2007). Each item has links for Feeds, Bookmarks, and Forums.
- Facebook News:** A widget titled 'Facebook News' with a search bar and tabs for Home, Profile, Friends, and Inbox (16). It displays news items: 'Diego Rodriguez is What about Some MarGariTasssss?????..... Sounds GooooDdddd.... :)', 'Chris Miller alrighty folks, Strands invites are flying out the door. Anyone else?', 'Carla Gillespie is working in the San Ramon office.', and 'Janna Benitez and Juan Antonio Orta Ramos are now friends.' It also shows a video post by Shirley Braley.
- Twitter:** A widget titled 'Twitter' showing 'Found 3 tweets' with the last update on October 10, 2008. It displays two tweets: one by 'jowyang' about a CMS vendor and another by 'ldoNotes' about Strands invites.

On the right side, there is a sidebar with the instruction 'DRAG THE WIDGETS TO ADD THEM TO THE PAGE.' and a list of widget categories: Activities, Blogs, FriendFeed, My Space, Date and Time, and Flickr.

At the bottom of the Facebook News widget, there is a 'Google' logo and the text 'Gadgets powered by Google'.

- Componentes para gestionar proyectos, incluyendo:
  - Bibliotecas de Documentos
  - Agenda de equipo e hitos
  - Listas para gestionar contenido estructurado
  - Foros de debates, blogs, & wikis...
  - Y más...
- Auto-servicio con una guía paso a paso para crear los espacios

The screenshot shows a web-based team workspace for the 'Renovations Special Promotions Team'. At the top, there's a search bar and a user profile for Henry Nilsson. Below the team name, there are navigation tabs: 'What's New', 'Team Blog', 'Documents', 'Events', 'Project Tasks', 'Issues', 'Forums', and 'Wiki'. A prominent green notification says 'Proposal Review today in CR165 @ 2:30 pm'. A 'Task Dashboard' section displays a list of tasks with columns for title, author, progress status (represented by colored squares), and date. The tasks include 'Cost Estimate for "Do-It-Yourself Weekend" promo', 'Create product list', 'Create bill of materials options', 'Book Sales Forecast', 'Arrange press releases & media blitz', 'Educate store managers', 'Schedule Teacher briefings', 'Review/edit Advertising Flyers', 'Team web conference planning session', and 'Arrange Store Logistics'. On the right side, there are sections for 'Recent Documents', 'Recent Forums', and 'Recent Blogs'. A 'Welcome back Henry!' message is also visible, along with an announcement about a meeting. At the bottom right, there's a circular icon with the text 'Drag desktop files and folders here'.

- Portlets para crear aplicaciones de negocio dinámicas con colaboración contextual

# Aplicaciones Compuestas Colaborativas

Agregar componentes colaborativos para construir aplicaciones contextuales **basadas en roles**, y utilizar nuevos componentes a su gusto, según sus necesidades

Se construyen sobre las funcionalidades totales de una librería de documentos más...

Agregar componentes como:

- Herramientas de gestión de Proyecto (ex: calendario de equipo, hitos, foros de discusión, etc...)
- Blogs, y wikis
- Anuncios, tareas y otras listas para gestionar contenido estructurado
- Contenido Web
- Cuadros de mando

Para generar aplicaciones colaborativas contextuales

The screenshot displays the Lotus QuickPlace Geneva interface for a project named 'Project Normandy'. The interface is divided into several sections:

- Project Tasks:** A table listing tasks with columns for Title, Assigned to, %Complete, Start, and Due. Tasks include 'Cost Estimate for Spring Initiative', 'Create skill profile', 'Interview w/ Dallas Associates', etc.
- Documents:** A list of documents with columns for Title, Author, and Date Modified. A context menu is open over the '2006 Vendor Wrap-up' document, showing options like 'Summary', 'Open', 'Download', 'Check Out', 'Edit Document', 'Edit Properties', and 'Replace'.
- Events:** A calendar view for November 2006 showing scheduled events like 'Wireframe final rev', 'Weekly checkpoint', and 'Milestone 1 All Drafts complete'.

# Administración

- Informes de Administración
  - Estadísticas de nivel y tipo de uso por espacio, incluyendo tamaño de datos, formularios, etc....
- Cuadro de Mandos de Usuario Final → Se reducen las llamadas al administrador
  - Mostrar estadísticas para analizar el uso
  - Funcionalidades de Administración (archivado, desbloqueo, borrado, ...)
- Los espacios pueden expirar basándose en políticas, para automatizar la administración
- Acceso de "Superusuario" para el espacio para delegar la administración
  - Los dueños del espacio tienen todos los permisos
