This is your invitation to a complimentary 3 day CICS event comprised of Technology updates providing a great opportunity to learn about new functionality and afternoon workshops to gain valuable hands-on experience.

Each day will have focus areas and will be valuable for many roles in your business, including Architects, CICS Systems programmers, Integration specialists, Developers for mainframe as well as non mainframe Java and Mobile developers. Attendees can choose which days best suit their requirements with presentations in the morning and hands-on labs in the afternoon.

### **Day 1 – Infrastructure Readiness**

The morning presentations will focus on the latest CICS updates plus what's new in CICS TS V5.3 Open Beta, and specific CICS Cloud and Development Sessions. The afternoon workshops will leverage the latest CICS Explorer (the GUI front-end to CICS) to configure CICS Application definition plus a hands-on CICS Cloud lab.

### **Day 2 – Service Agility**

The focus will be using Java and Liberty Profile in CICS as well as new integration options including Mobile. With presentations in the morning and the afternoon lab providing a hands-on z/OS Connect experience on CICS Liberty Profile.

### **Day 3 – Operational Efficiency**

This day will provide insight into CICS application deployment with DevOps, as well as discussions around CICS and Problem Determination tools that can assist with upgrades and the day-to-day running of your CICS and z Systems environment. The afternoon workshop will provide attendees with hands-on experience of key CICS and IBM Problem Determination tools.
