

This module is for IBM Tivoli[®] Composite Application Manager for Transactions (ITCAM) version 7.3, and the Rational[®] Integration Plug-in.

	IBM
Objective	
When you complete this module, you can install the ITCAM for Transactions Integrat plug-in for Rational Functional Tester or Rational Performance Tester	ion
2 Installing the ITCAM plug-in for Rational Functional Tester or Rational Performance Tester © 201	1 IBM Corporation

When you complete this module, you can install the ITCAM Plug-in with Rational Functional Tester or Rational Performance Tester.

The assumption for this module is that you have completed the Rational Functional Tester (RFT) Version 8.2 installation. Ensure RFT is updated to the latest Version 8.2 fixes. The same requirements apply for RPT.

	IBM
Process outline	
1. Obtain the Rational Integration Support package	
2. Extract the package on the RFT and RPT workbench	
3. Run the setup file to install the plug-in	
4. Verify the plug-in installation	
4 Installing the ITCAM plug-in for Rational Functional Tester or Rational Performance Tester	© 2011 IBM Corporation

The major steps in this process are as follows:

- 1. Obtain the Rational Integration Support package supplied with ITCAM for Transactions.
- 2. Extract the package on the RFT and RPT workbench.
- 3. Run the setup.exe program to install the plug-in.
- 4. Verify that the plug-in successfully installed.

Obtain the Rat	ional Integration Pa	ackage			
1.Consult the latest	version of ITCAM for Tran	saction documentati	ion		
2.Determine the Rat	ional Integration Support i	mage name from the	e documentati	on	
3 Download the image	ne from Passnort Advanta	ae® or find the imag	e on the instal	lation CD

The ITCAM for Transaction documentation provides the name of the installation image. Verify the most recent ITCAM documentation for the image name, and download the image from Passport Advantage. If you have ordered physical CD, you can find the image also on the product CD.

After you download the image, extract the image on the RFT or RPT workstation. The plug-in is needed for uploading recordings to ITCAM but not needed on the Robotic Response Time T6 agent. The plug-in is needed only on the RFT workstation, where the recordings are created. RPT should not be installed on the Robotic Response Time T6 agent. Run the setup.exe file to begin the plug-in installation.

	IBM
Run the installation program	
1. Review the installation panel	
2. Click Next	
3. Accept the license agreement	
4. Click Next
