

IBM Innovation Center

Grow your business with local and global resources

IBM Innovation Center (IIC)

At the IBM Innovation Center Bangalore, it is our constant endeavor to identify opportunities and develop various roadmaps to ensure success. The experts at the center continuously work with Business Partners, entrepreneurs, academia, and IT professionals in order to build the solutions and skills required for achieving success. In addition, our work with local universities ensures that their curricula cater to the demands of enterprises and that students have access to IBM hardware and software. We also work with several IT professionals to build and validate expertise on in-demand skills and to stay abreast of enterprises' ever-changing needs.

Local access to global resources

As one of the growing network of forty worldwide centers dedicated to building a smarter planet with you, the IIC in Bangalore is also your access point to support around the world. No matter whether you want to make local connections across the world or simply access technical expertise at a far-away location, the worldwide IBM Innovation Centers are always there to assist you.

Industry solution support for Business Partners

Our Bangalore Center provides industry-specific support for Business Partners. The Center will assist you to tap into support around the world for a number of industries. IIC also offers well-laid-out roadmaps for several industries, including BFSI, Public Sector/Government, Manufacturing, Telecom and Retail.

Cross-industry solution support

Business Analytics and Cloud Computing are some of the general, or cross-industry, solution opportunities. To remain competitive and earn profits from the constantly evolving and in-demand areas, our Bangalore Center provides access to the latest technologies and robust support throughout the development and sales cycle.

Support for entrepreneurs and start-ups

In-depth expertise and support are offered locally to these segments. We work to assist in technology awareness, assessment, adoption, integration and proofs of concept as well as serve as a venue for the IBM Venture Capital Group, which is co-located with the center.

Academic community support

The IBM Innovation Center - Bangalore carries out the Project Praviin academic mission locally by extending help in connecting with IBM experts, building students' skills, providing access to IBM hardware and software, and working with educators to enhance the university's curricula.
