Bringing Watson to market

Transforming industries and professions.

Advancing cognitive computing across the enterprise.

Delivering the cognitive experience to the masses.

2014 Consultants & System Integrators Interchange

A cognitive learning system enhances our abilities to perceive, reason and relate

Perception

Watson understands the world as we do: it interprets sensory input beyond traditional data

Reasoning

Watson thinks through complex problems: it deepens our analysis and inspires creativity

Relating

Watson understands how we communicate, and personalizes its interactions with each of us

Learning

Watson learns from every interaction, scaling our ability to build experience
