

Overview

A communication platform requirement

Praj Industries Ltd. (Praj) needed to replace its disparate and dispersed communication networks with a unified, secure platform

A seamless, secure solution

By implementing IBM Lotus Domino and IBM Lotus Notes V8.5.1 software, Praj was able to seamlessly communicate and transact all confidential data within its business networks

70% reduction in transaction processing time

The solution helped Praj reduce transaction processing time by 70 percent and also improved business security across its vast network

Solution Components

Software:

- IBM Lotus® Domino®
 - IBM Lotus Notes® V8.5.1
-

Praj Industries Ltd.

By establishing a secure, collaborative solution, IBM software facilitated seamless communication across the board for the global process and project engineering company.

Based in Pune, India, Praj Industries Ltd. (Praj) is a global company engaged in process and project engineering activities. The company offers innovative solutions to add value to bio-ethanol, alcohol and brewery plants, process equipment and water and waste-water treatment systems for customers worldwide. Founded in 1984, Praj has operations in more than 60 countries and generates an annual revenue of more than INR 6.4 billion.

The Challenge

Praj relied on multiple dealer networks worldwide, which resulted in problems in internal information sharing. Further, Praj used private intranets for communication such as sending email messages or confidential documents and faced security issues and other challenges. Moving forward, Praj sought a secure, collaborative solution for seamless communication.

The Solution

To achieve its goals, Praj implemented IBM Lotus® Domino® and IBM Lotus Notes® V8.5.1 software. The IBM Lotus Domino software provides a secure, collaborative environment for the client's business applications, while the Lotus Notes software provides a reliable platform for email and messaging. The Lotus solution enabled Praj to seamlessly communicate and transact all confidential data within its business networks.

“IBM’s software platform has more than exceeded our expectations at Praj. Not only do we have a seamless communication platform across our diverse network now, it has also improved business security and enhanced efficiency.”

- Praj Industries Ltd.

Benefits

- By implementing the IBM collaboration solutions, Praj gained a stable, secure communication platform.
- The transaction processing time was reduced by 70 percent.
- The new Lotus solution offers improved security features, which provides the client with peace of mind.
