Highlights

■ *Engage the experts—team with IBM Software Services for WebSphere! Our skilled consultants will propel your Enterprise Service Bus (ESB) project into full swing*

■ *IBM Software Services for WebSphere has the depth and breadth of knowledge and experience with WebSphere software to enable your business to be agile and high performing in a constantly changing environment*

Business Challenge

You know that your business can benefit from implementing WebSphere Enterprise Services Bus, but you face challenges ahead. Our experts will help you to:

- Design, develop, and deploy an ESB to enhance your move to a Service Oriented Architecture
- Avoid common pitfalls while quickly and efficiently adopting a new technology
- Speed time to value to boost project return on investment (ROI)

Services Solution

Our experts help you quickly get your ESB project on the right track. Backed by years of proven software deployment experience, IBM Software Services for WebSphere is a team of highly skilled consultants with broad architectural knowledge, deep technical skills, and recommended practices expertise. We provide worldwide support for WebSphere products to make it easy for clients and partners to design, build, test, and deploy solutions—helping you to become an On Demand Business.

We will help you achieve real business value from your recent investment in WebSphere Enterprise Service Bus and also avoid the pitfalls involved with implementing a new technology. You will be able to quickly and efficiently adopt the new technology, speed time to value, and boost your project ROI. Additionally, our skilled consultants will provide you with a tailored roadmap for moving forward with WebSphere Enterprise Service Bus.

Typical Activities

Equipped with the tools for success, our experts have world-class skills and a suite of service offerings for implementing your ESB project. In addition to the benefits of having subject matter experts at your team's side, the following activities are provided as part of this software service:

- Assessing your ESB requirements
- Installation of WebSphere Integration Developer in a staging environment
- Exploring ESB solution design by applying recommended practice patterns
- Providing hands-on mentoring assistance

Deliverables

The following items will be delivered to you as a result of this review:

- Installation of WebSphere Integration Developer in a staging environment
- Lectures and interactive working sessions with your team
