

Lotus software

If everyone in your workforce had electronic messaging, you could:

Drive profitability.

Save money.

Inspire collaboration.

And increase productivity.

So, what are you waiting for?

With IBM Lotus® Workplace Messaging™, you can:

- Extend cost-effective messaging to the rest of your organization.
- Help increase productivity through enhanced communication.
- Ease integration with open-standards architecture and support.
- Support portals, browsers and other workplace applications.

A new messaging solution from a proven leader.
