Business Aligned IT Discovery Series 2010

Doing More Anywhere, Anytime... and Growing

Internet Users in the World by Geographic Regions (MM)

25% of the world's population (1.734MM) are internet users

...there are more mobile phones than computers connected to the internet

58% of Americans have a mobile phone with Web connectivity

27% of U.S. households are now mobile only

Web visitors using a mobile device increased to 56.9 million in July 2009

Browsing the web was the fastest-growing activity on mobile phones between the 2nd & 3rd quarters of 2009

2000	2009	Online Activities Shifting
35%	81%	Research products & services
27%	75%	Buy a product
19%	66%	Make travel reservations
0%	62%	Watch a video
10%	57%	Do online banking
0%	47%	Use a social network site
0%	32%	Read others' blogs
0%	31%	Provide ratings

52% 77% of US adults use the internet

Business Aligned IT Discovery Series 2010

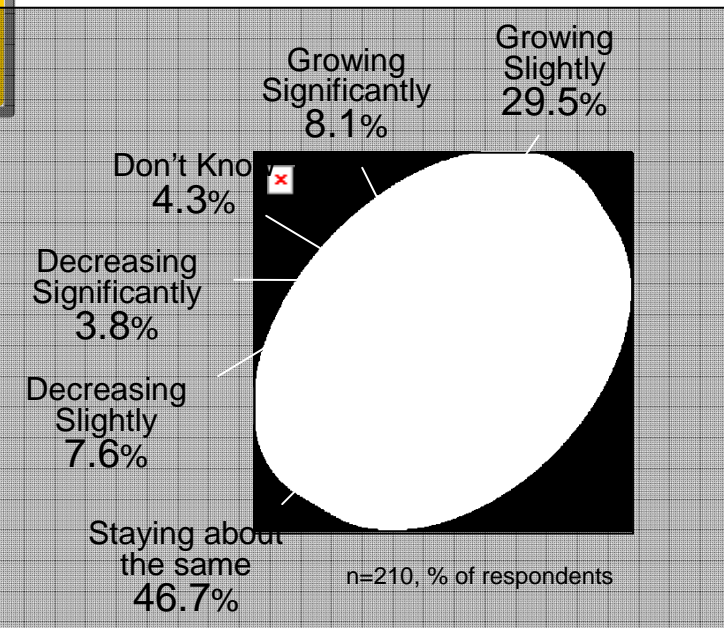

External-Facing Web Site Priorities

84% of organizations will maintain or **increase investment** in their public Web site(s) in the next 12 months

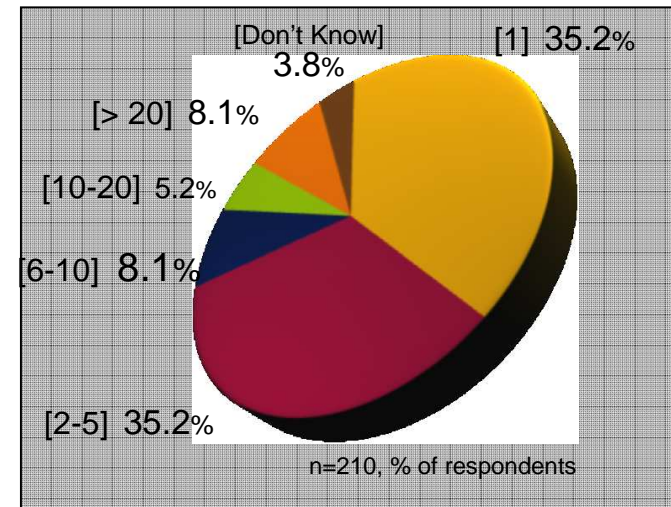

"...it's too **difficult** for content creators to **publish content** (and keep the site fresh and up to date)..."

"...the **explosion** in the number and types of content — particularly **rich media** and other **persuasive content** — underscores the urgency in organizations today to make their Web sites more **compelling and engaging.**"

Which of the following best reflects your company's planned investment in public websites over the next 12 months?

56% of organizations maintain **multiple** external-facing Web sites

How many public web sites (including sites published in different local languages) does your organization maintain?

"...they want to be able to **analyze Web site usage** and **user interactions** so that they can iteratively improve and tune their Web site(s) to **improve customer interaction.**"

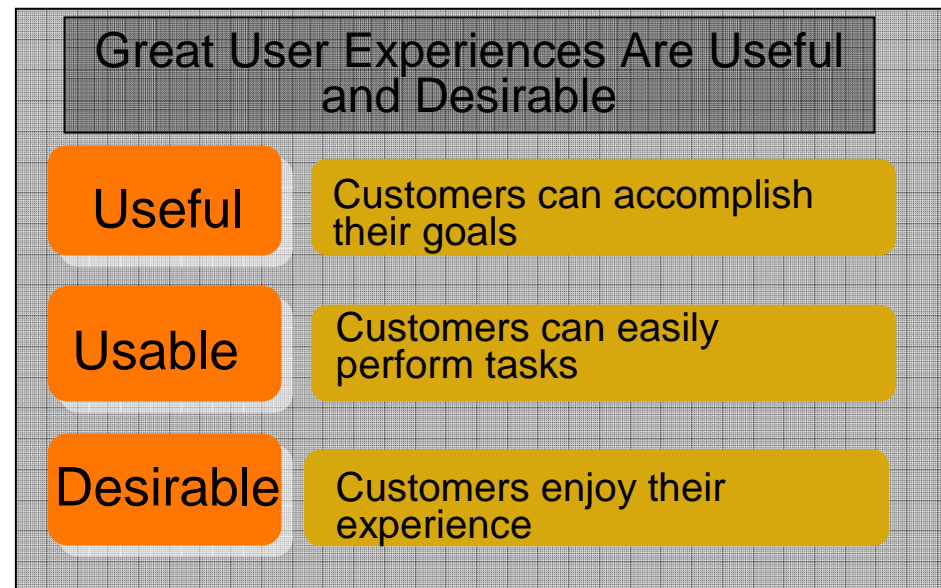

Business Aligned IT Discovery Series 2010 Lotus knows.

A Better Web Experience is a Better Business Experience

Exceptional Web Experiences can result in:

- **400% higher** visit-to-lead conversion rate
- **200% higher** visit-to-order conversion rate
- **41% lower** page abandonment rate
- **16.6% more** recommendations by customers for your products and services
- **15.8% fewer** customers lost to competitors
- **14.1% repeat purchase** interest by customers

Business Aligned IT Discovery Series 2010

Connecting customers, partners and employees creates measurable financial return

15%

Median reduction in **operating costs** in core processes (for example, immediately connect expert to solve exception process)

Employee

25% and 17%

Median improvement in customer marketing **conversions** and **loyalty** with programs such as social media marketing

Customer

20%

Median reduction **in time to market** for products and services by connecting product teams with customers, channels

Business Aligned IT Discovery Series 2010

Portals provide a **single point** of personalized interaction with people, content, processes & applications, in context of the user

Business Aligned IT Discovery Series 2010

Organizations use portals to drive cost savings, operational efficiency, and revenue increases through more valuable interactions with customers, employees, and suppliers

B2E Portals improve employee and management work productivity and decision support quality

Connect Interact Innovate

B2C Portals improve communication and service quality to customers and external stakeholder.

B2B Portals improve collaborative transactions and knowledge sharing with key business partners

Forms

IBM Portal Capabilities and Features

- Self-service HR administrative access
- Enhanced on-line recruiting processes and approval workflows
- Improved integration of workforce performance and management systems

- Roles-based delivery of content and information
- Pushed information to different devices to increase usability
- Targeted alerts and communication to appropriate audiences

- **Streamline patient on-boarding via electronic forms**
- **Automated confirmation of insurance coverage status**
- **On-line document retrieval**
- **Reduced cost of procuring and distributing paper-based forms**
- **Reduced time and effort required to develop and maintain forms**
- **Avoid additional IT infrastructure to integrate XML data into forms**

- Quick access to leading business indicators by region
- Dashboards with color indicators to highlight trouble spots

- Reduced cost of manual labor associated with storing and archiving forms
- Avoid IT infrastructure cost associated with storage and archiving forms (e.g., scanning/imaging equipment)

Business Aligned IT Discovery Series 2010

Swift Transportation – Driver Self Service

- A tailored experience for drivers
 - Low level of computer experience
 - \$3,000 to hire a driver, 120% turn over rate
- Owner Operator Portal and “The Informer” Kiosk
 - Self service while on the road
- Business Value
 - 20% reduction in total calls led to reduction in support staff
 - Increased morale with drivers
 - 30min hold time down to 1min
 - Reduction in time to get paid for work
 - Consistent communication, collaborate with home and Swift HQ

EXCEPTIONAL USER EXPERIENCE

Challenge

The existing solution:

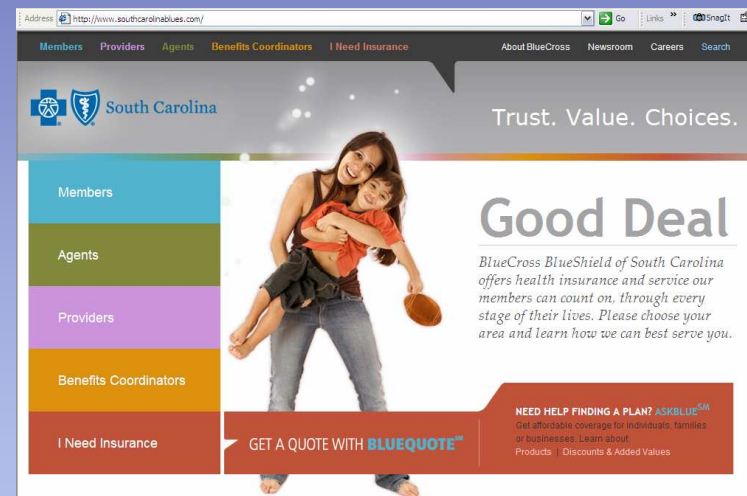

- Required IT involvement to change content.
- Prevented business users from managing content for secure and non-secure customer portals.
- Lacked single-sign-on, personalization, and access to comprehensive plan information.

Solution

- Replace the existing static content with content managed by Lotus Web Content Management.
- Leverage the personalization engine.
- Provide business users with advanced Web content management capabilities.
- Allow customers to review their plan information, including benefits, deductibles, services performed and account balances.
- Include a plan comparison tool for use by members and nonmembers.

Business Benefits

- Serves content to approximately one million customers and twelve thousand employees
- Improves the overall experience for users.
- Provides potential members with better access to plan data and comparisons.
- Improves control over content and allows them to develop content more quickly.
- Allows business users to produce and managing content without IT intervention.

Portal NOW Prescriptive Deployment Guides for Predictable Projects

Requirements Document

WPD: PortalNOW - Requirements Document

IBM Software Services for Lotus
Portal NOW - Requirements Document
Work Product Description (WPD)

© Copyright International Business Machines Corporation 2009. All Rights Reserved

1 Description
This document describes the business and technical requirements of the Portal NOW implementation.

2 Purpose
The purpose of this document is to specify the business and technical requirements for the implementation team to develop Portal NOW in a predictable manner.

3 Business Requirements

- What are the business requirements that you would like to address with WebSphere Portal NOW?
- Who will be the business and technical owners of the implementation?
- Which languages would you like to support?
- How many users will have access to the solution?
- Do you require document management?

Requirements Document Page 1 of 1

Statement of Work (SOW)

Sample Statement of Work

Overview and Approach
IBM Software Services for Lotus is pleased to present the statement of work (SOW) to Customer Name for WebSphere Portal NOW implementation services.

Statement of Work
This document describes the work to be provided by IBM Software Services for Lotus under the terms and conditions of the agreement.

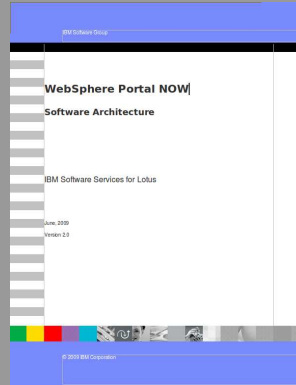

Project Scope
The project scope includes the following:

- Installation and configuration of WebSphere Portal NOW on the customer's existing hardware and network environment.
- Deployment of the WebSphere Portal NOW application and its associated content management system.
- Configuration of the WebSphere Portal NOW application and its associated content management system.

Key Assumptions

- The Customer is responsible for providing the hardware and network environment required for the implementation.
- The Customer is responsible for providing the necessary personnel to assist in the implementation.
- The Customer is responsible for providing the necessary data and content for the implementation.

Software Architecture

Customization Guide

WPD: Customization Guide

IBM Software Services for Lotus
Portal NOW Customization Guide
Work Product Description (WPD)

© Copyright International Business Machines Corporation 2009. All Rights Reserved

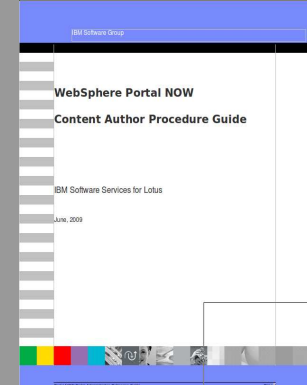

1 Description
This document describes the customization options available for the Portal NOW implementation.

2 Purpose
The purpose of this document is to provide the customer with the information needed to customize the Portal NOW implementation to meet their specific requirements.

3 Customization Approach
The customization approach involves the following steps:

- Identify the customization requirements.
- Review the customization options.
- Configure the Portal NOW implementation.

Content Author Procedure Guide

Installation Guide

WPD: Portal NOW - Installation Guide

IBM Software Services for Lotus
Portal NOW - Installation Guide
Work Product Description (WPD)

© Copyright International Business Machines Corporation 2009. All Rights Reserved

1 Description
This document describes the process for installing the WebSphere Portal NOW software in a Portal environment.

2 Purpose
The purpose of this document is to specify the sequence of steps for an implementation specialist to use to install the Portal NOW software.

3 Naming Conventions
Throughout this document, the naming convention used to denote the location of files on the servers are as follows:

Operating sys	Location
Linux	/usr/lib/WebSphere/Portal/Server
Windows	C:\IBM\WebSphere\Portal\Server

Installation Guide Page 1 of 1

Environmental Risk Assessment

WPD: Portal NOW - Environmental Risk Assessment

IBM Software Services for Lotus
Portal NOW - Environmental Risk Assessment
Work Product Description (WPD)

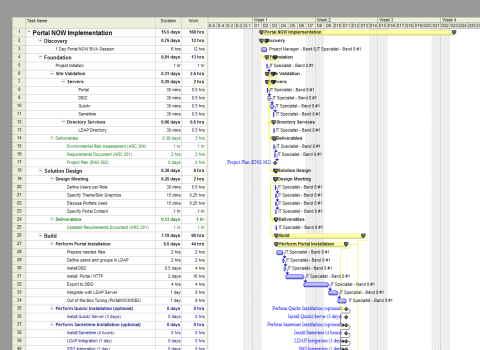

© Copyright International Business Machines Corporation 1999, 2004

1 Description
The Environmental Risk Assessment and Impact tool provides an assessment of the current IT environment. This assessment can help identify areas of concern and provide recommendations for risk mitigation.

2 Purpose
The purpose of this document is to provide the customer with the information needed to perform the Environmental Risk Assessment and Impact tool.

3 Environmental Risk Assessment and Impact
The Environmental Risk Assessment and Impact tool provides an assessment of the current IT environment. This assessment can help identify areas of concern and provide recommendations for risk mitigation.

1 Description
This document provides instructions and access key information to perform authorized downloads of the WebSphere Portal NOW installation kit from the IBM Industry Toolbox site.

2 Purpose
The purpose of this document is to provide the customer with the information needed to download the WebSphere Portal NOW installation kit.

3 Accessing the IBM Industry Toolbox Site

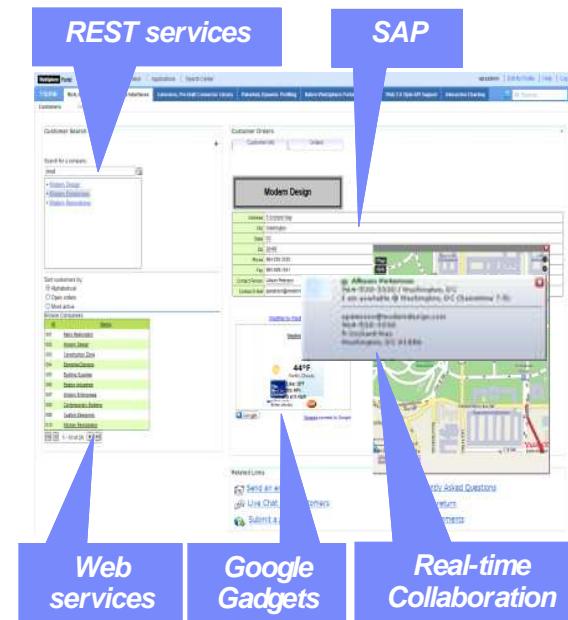

- Go to the Industry Toolbox site and click on the WebSphere Portal NOW link.
- Click on the Download link.

Business Aligned IT Discovery Series 2010 WebSphere Portal + WebSphere Portlet Factory = The Ultimate Exceptional Web Experience Platform

Providing a Complete, Ubiquitous, Engaging and Immersive Experience that is Always-Available

- Rapidly Leverage WebSphere Portal Features:
 - Embed collaboration, facilitate real-time problem solving (people awareness)
 - Provide a seamless user experience by leveraging Single Sign On to transparently access disparate back-end systems (credential vault)
 - Integrate data from multiple back-end systems by creating composite applications (inter-portlet communication)
 - Empower business user and administrator led customization (personalize, configure and edit)
 - Iteratively create, test and deploy applications (automated deployment)

Rich, Composite, Role-Based Portal Applications - Fast

Business Aligned IT Discovery Series 2010

Extending the NEXT Generation Web Experience Platform

2010 Portal Pillar Roadmap...

Simpler, Richer Web Experiences

Web Content Management Excellence

- Improved Authoring & User Experience
- Tighter Portal integration

Multi-Channel Delivery

- Improved personalization
- Out-of-box mobile application support
- Client framework widgets, samples

Web 2.0 & Social

- Web content tagging, rating, and searching
- Portlets for Lotus Connections profiles, wikis, tags & more
- Enhanced web 2.0 eForms
- Saba eLearning enhancements

Cost of Ownership

- Virtualization and portal farming
- Serviceability
- Public and Private Cloud Deployment Options

Analytics

- Tooling that enables onsite analytics to optimize your site

Value & Customization

- Industry and Portal NOW Templates
- Best practice guidelines spanning WPLC portfolio
- Out of the box samples continuously delivered via Portal Catalog

Rapid Application Development

- New Dashboard builders and ILOG jViews charting
- Usability and visual application support

Business Aligned IT Discovery Series 2010

EXCEPTIONAL USER EXPERIENCE

Business Challenge

- Multiple technologies and backend legacy systems challenging to manage
- Lack of site visit due to the perception that the content is static and not personalised
- Students relationship with SP over the long term was declining
- No single gateway for Staff/Students and Teachers to access information and services in a consistent fashion

Solution

IBM WebSphere Portal Extend

IBM Lotus Web Content Management (WCM)

IBM Lotus ActiveInsight

IBM Lotus Quikr and Lotus Connections

- Prior to the new solution, the Internet site was under utilised with minimal personalisation to students. After the Portal Solution was implemented, the Permanent Secretary of Education praised the school in for being the first institution in Singapore to deliver role-based, personalized services to its students.

Business Benefits

- SP can now harness collective knowledge, foster innovation and promote social networking amongst the staff and student communities by adopting Web 2.0 applications
- Key performance indicators(KPIs) can be monitored. SP can now easily create and publish key performance indicators (KPIs), reports and related information to portal users
- SP can now effectively manage and publish content for authenticated Portal users for both intranet and internet sites

Business Aligned IT Discovery Series 2010

EXCEPTIONAL USER EXPERIENCE

The screenshot shows the Singapore Polytechnic (SP) website interface. At the top, there are browser tabs and a search bar. The main navigation menu includes: About SP, FAQs, Visiting SP, Contact Us, Media Room, eServices, and a search icon. The central banner features a young man and the text: **TRUE HORROR STORIES** EXAM STRESS + HOW TO AVOID IT. Below this, it reads: "Student scored A2 in prelim Science paper, yet, what he did next freaked out his classmates. Student needed all the time in the world for revision, so she chose to sacrifice her..." and includes a "SPOTLIGHT" logo. To the right of the banner is a vertical menu with links: Course Fees and Fees Payable, Financial Assistance Schemes, Payment of fees, Scholarships, Skills Development Fund, and Parents. Below this is a "Quick Links" dropdown and social media icons for YouTube and Facebook. A "Calendar of Events" and "BOOKMARK" button are also present. The bottom section is divided into four columns: "SPotlight" with a "New 5+1" graphic; "SPBuzz" with a photo of students and the text "Beauty queens in the..."; "Now@SP" with a photo of students and the text "The one place for you Get the all-in-one"; and "EventSPlash" with a photo of students and the text "Accepting applications now!". On the right side, there is a "SPVideo" section with a video player titled "New Courses and Programme! In 2010" and a "BE AN SP Buddy TODAY!" graphic.
