IBM Software

# Innovate2012

The Premier Event for Software and Systems Innovation

# Rational Development Tools for Power Systems

*A total solution*

**Rational Developer for Power family**  
(part of Rational's broader unified family of IDEs)

Unmatched individual developer productivity

**Rational's Multi-Platform Collaborative Lifecycle Management Solution**

Unmatched team collaboration and productivity

**Rational Compilers for Power**

Unmatched leverage of Power architecture and OSes

**Power® platforms**

Unmatched price-performance profile

- Also...
- Quality and Security Management
  - Application Portfolio Management

## Common Developer Desktop: Modern tools that...

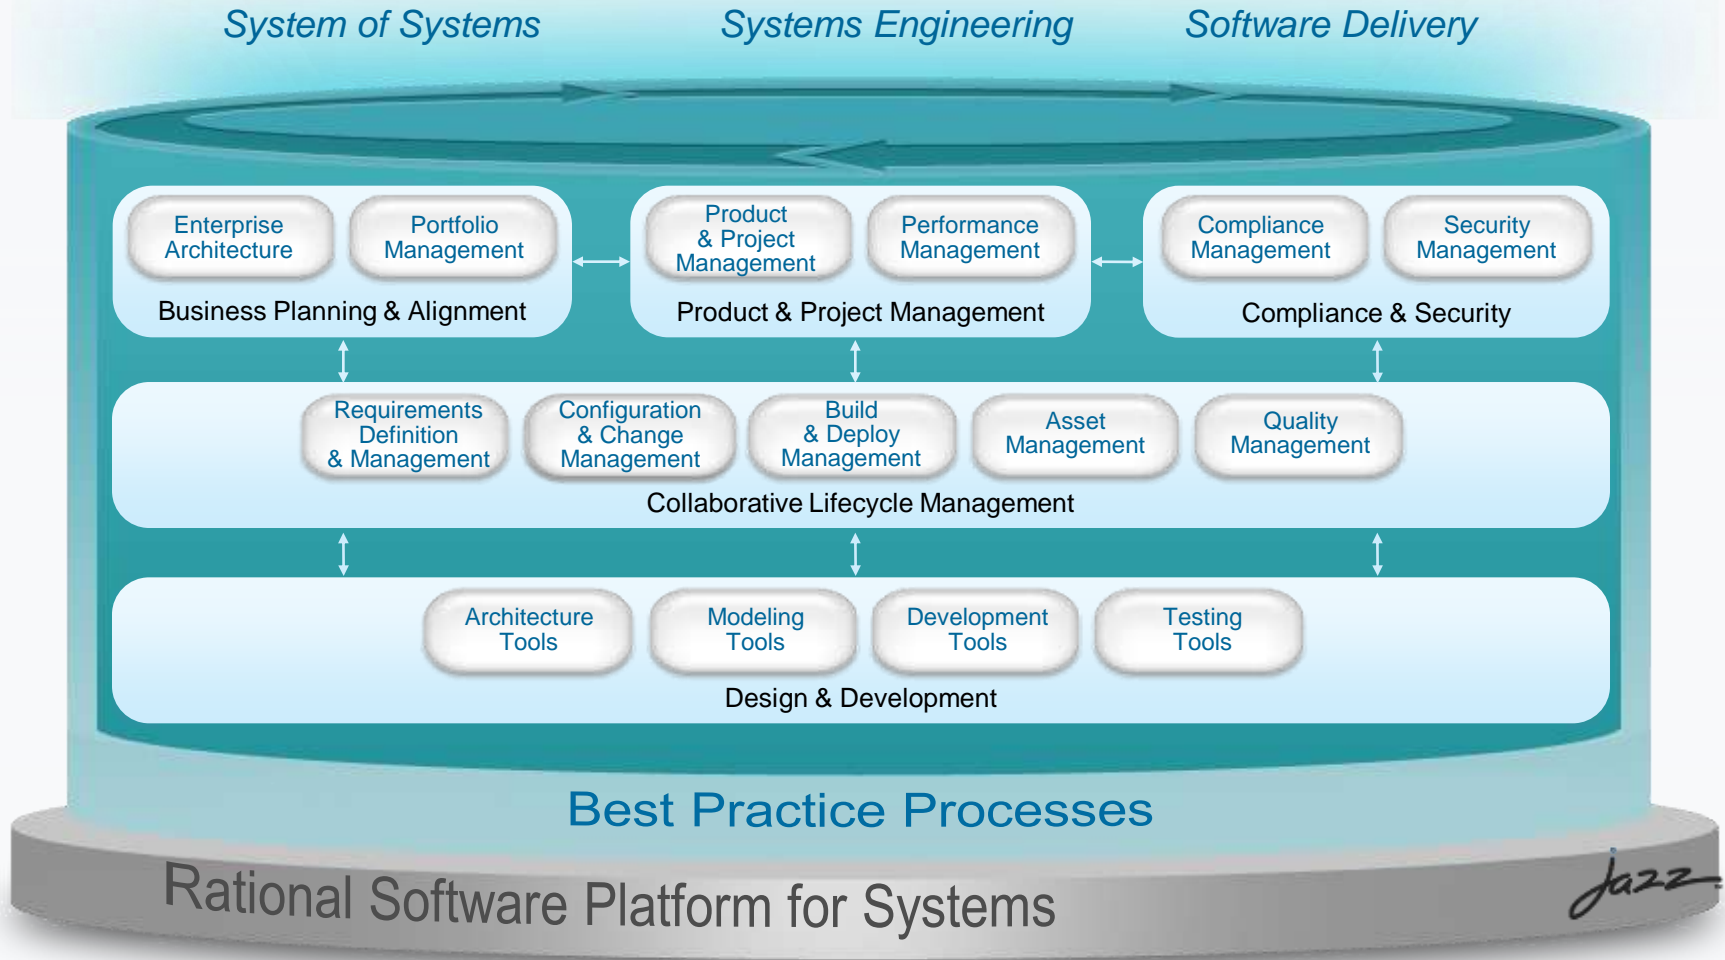

- Raise Developer Productivity
- Raise Skills Portability
- Attract and Retain Talent  
(and Reduce Initial Developer Training Costs)

- Build applications that span platforms, languages, and technologies
- Homogenize desktop administration

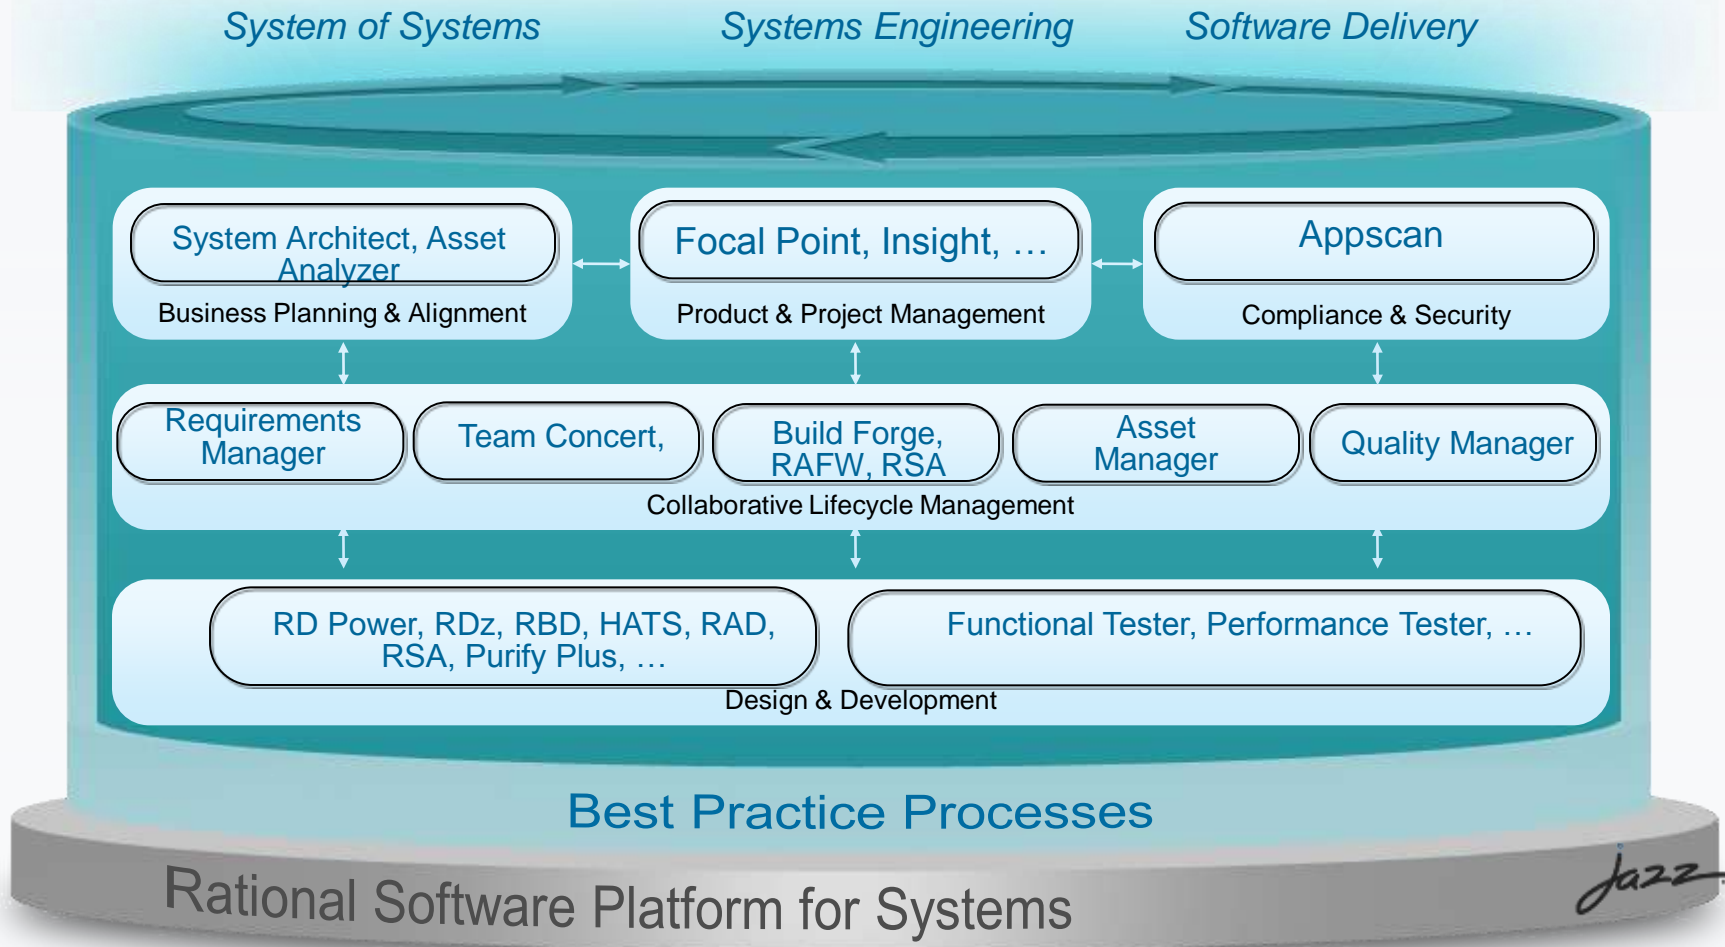

# Transforming software and systems delivery through a rich set of capabilities...

IBM and Business Partner Ecosystem

# ... and the Rational offerings that deliver them
