Roadmap - 2012 is een druk jaar geweest

- Scheduler 7.5.1
- Health & Safety 7.5.1
- Oil & gas 7.5.1
- Mobile 7.5.1
- Everyplace 7.5.1
- Service Providers 7.5.1
- Nuclear 7.5.1
- SmartCloud Control Desk 7.5
- Tririga 10.3
- TPAE 7.5.0.2 / 7.5.0.3

Maximo Scheduler 7.5.1

- Maximo Scheduler is een add-on module voor Maximo
- Doelstelling van Scheduler in Maximo is om:
 - Werk orders en Preventief onderhoud efficiënter te plannen
 - Vroegtijdig inspelen op middelenbehoefte
 - Voortgang van werk en projecten te bewaken
 - Integreren met de mobiele service monteurs

- Nieuw in Maximo Scheduler 7.5.1
 - Grafisch toewijzen
 - Werk order acties vanuit de planning
 - Schedule compliance
 - Tonen van beschikbaarheid van andere middelen
 - Beschikbaarheid van Locaties/Assets
 - Kaartweergave van werk orders en resources (google/bing maps)

Maximo Health, Safety and Environment Manager 7.5.1

- HSE Manager is een add-on module voor Maximo
- Doelstelling van HSE in Maximo is om:
 - Risico's voor mens, installaties en milieu te verminderen
 - Compliance aantonen met wet- en regelgeving
 - MVO integreren met Asset management processen
 - Risico analyse
- Nieuw in Maximo HSE Manager
 - Risico assessment
 - Werk vergunningen
 - Audits en Surveys
 - Uitbreiding Lock Out / Tag out procedures
 - Locatie profielen t.b.v. impact op productie verliezen
 - Certificeringen van personeel en processen
 - Verbeteringen in Change management proces
 - Performance standaarden voor kritieke assets

Maximo Mobile 7.5.1

- Maximo Mobile is een add-on module voor Maximo
- Doelstelling van Mobile in Maximo is om:
 - Werk order afhandeling sneller en efficiënter te maken
 - Reactie- en doorlooptijd van spoed werk orders te verkorten
 - Data integriteit verbeteren door registratie aan de bron
- Nieuw in Maximo Mobile 7.5.1
 - Ondersteuning voor Android OS
 - Android 2.3+
 - Uitbreiding keuzemogelijkheid voor devices
 - Smartphones, tablets, laptops, rugged devices, etc
 - Camera ondersteuning
 - “Spraak naar tekst” data invoer
 - GPS positie bepaling
 - RFID scanning mogelijkheden
 - Performance verbeteringen

SmartCloud Control Desk 7.5 (SCCD)

- Nieuw product gebaseerd op Maximo TPAE platform
- SmartCloud Control Desk 7.5 is de opvolger van:
 - Tivoli Service Request Manager (TSRM)
 - Tivoli Asset Management for IT (TAMIT)
 - Change & Configuration Management Database (CCMDB 7.x)
- Doelstelling van SmartCloud Control Desk:
 - Efficiency verbetering in service management
 - Integreren van informatie uit silo's in één oplossing
 - Bereiken van synergie tussen IT en OT processen
 - Ondersteunen van IT Service management processen, o.a.
 - Helpdesk
 - Service catalogus
 - Service Level Mgt
 - IT Asset Lifecycle Mgt
 - Incident & problem Mgt
 - Change & release Mgt
 - Incident & Problem Mgt
 - Licentie beheer

IBM Performance Analyst

- IBM Performance Analyst helpt u met performance analyse
- Self-Service performance tools
 - Klant gericht, voor IT of Support staf
 - Help klanten bij het beantwoorden van performance vragen
 - Identificeren van pijnpunten
 - Zoek- en filter functie voor performance analyse
- Rules Based Architectuur
 - Definiëren van drempelwaardes om hoofd- van bijzaken te scheiden
 - Aanreiken van toelichten en aanbevelingen
 - Geen programmeerwerk voor het toevoegen van regels
- Product / platform onafhankelijk
 - Maakt gebruik van uitbreidbare plug-ins
 - Standaard plug-ins voor meest gebruikte OS, applicatie server en database servers
- Gratis download op IBM developerworks: <http://ibm.biz/BdxDbg>

Tririga

- Tririga is een overname van IBM op gebied van Vastgoed en Facility Management
- Doelstelling van Tririga is om:
 - Kosten te besparen in het exploiteren van vastgoed
 - Efficiëntere benutting van gebouwen
 - Realiseren van energie en milieu besparingen over alle vestigingen
- Tririga 10.3 biedt
 - Vastgoed Management
 - Project Management
 - Facility Management
 - Operations Management
 - Energie & Milieu
 - Integratie met Maximo

Roadmap thema's

- 
1. Optimalisatie en Workforce management
 2. Predictive Analytics
 3. Mobiliteit
 4. Facilities en Vastgoed
 5. Data Center Infrastructuur
 6. Platform & gebruikersinterface

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

VISIBILITY

CONTROL

AUTOMATION

Scheduler 7.5.2

Gepland Q3 - 2013

- Belangrijkste nieuwe functies
 - Ondersteuning voor optimalisatie modellen
 - Geautomatiseerd planning en routering
- Toegevoegde waarde
 - Vervang handmatige, foutgevoelige en tijd-rovende handelingen met een snel geautomatiseerd proces
 - Gebaseerd op onderzoek: kan 5-15% kosten reduceren voor onze klanten
 - Gebruik business drivers als optimalisatie. b.v. minimale inhuur, laagste kosten
 - Beter bezettingsgraad van middelen
 - Beter sturen op SLA's
 - Sneller inspelen op nood gevallen

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

Scheduler 7.5.2 - Optimalisatie modellen

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

Predictive Asset Management

- Maximo add-on module, gebaseerd op IBM SPSS
- Gepland voor H1-2014
- Doelstelling
 - Leveren van een gestandaardiseerd SPSS model dat “out of the box” aansluit bij het Maximo data model.
 - Integratie tussen SPSS en Maximo op basis van Maximo Integration Framework (MIF)
 - Gebruik maken van de SPSS run-time engine
 - Analytische resultaten / aanbevelingen via BIRT rapportages in Maximo
 - Leveren van een aantal use cases die gebruik maken van Maximo data, b.v
 - Voorspellen van verstoringen
 - Optimaliseren van onderhoudsinterval
 - ...
 - Doorgroei mogelijkheid tot geavanceerde opties IBM BI opties

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

Maximo Mobile – Next generation

- Introductie van een nieuwe mobiele oplossing voor Maximo gebaseerd op IBM Worklight technologie
- Gepland voor Q3 - 2013
- Doelstelling van het nieuwe mobiele platforms is om:
 - Gebruik maken van de nieuwe moderne mogelijkheden die mobiele devices brengen
 - Mogelijk maken van de nieuwe manier van werken door middel van “Apps” en “Always on”
 - Het gebruik van Maximo en Tririga dieper in de organisatie te verankeren
 - Leveren van “Apps” die gericht zijn op rollen
- Voordelen:
 - Eén platform
 - Gemakkelijk aan te passen
 - Toegang vanaf overal
 - Toegankelijk voor diverse, moderne en afwijkende devices / OS geschikt voor de job

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

Maximo Mobile – Next generation Roadmap

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

Maximo 7.x enhancements

Categorie	Enhancement
Platform	<ul style="list-style-type: none">• DB2 10.1, Oracle 12g/c, SQL-Server 2012• WebSphere 8.5, WebLogic Server 12c• Firefox 17, Internet Explorer 9/10, Safari 5/5.1, Chrome v20
“Multi-tenancy”	<ul style="list-style-type: none">• Meerdere configuraties / implementaties van maximo binnen 1 instance• Isoleren van data, UI, Processen, Integratie, Rapporten, Beveiliging
Installatie	<ul style="list-style-type: none">• Automatiseren van typische configuratie scenario's• Meer en betere Help tijdens installatie• Gebruik maken van native (b.v. WAS) installers• Zoeken, downloaden en auto-update van de installatie code – b.v. fixpacks en hot fixes

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

Maximo 7.x enhancements

Categorie	Enhancement
Functies	<ul style="list-style-type: none">• Introductie Werkgroepen (Crews)• Service adres functionaliteit voor Asset , Locaties, Werk orders, Tickets, etc• Publieke kaartdiensten API en Toepassingsontwerper voor de kaart (Google, Bing, ESRI)• Kaartweergave van werkorders, tickets en resources
User interface	<ul style="list-style-type: none">• Update van gebruikersinterface• Verbeteringen in de navigatie structuur – linker menu balk, “breadcrumbs”• Verder documenteren van optionele functies geïntroduceerd in release en fixes• Diverse “Request For Enhancements”

The information on the new product is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information on the new product is for informational purposes only and may not be incorporated into any contract. The information on the new product is not a commitment, promise, or legal obligation to deliver any material, code or functionality. 2013 Capabilities Roadmap

SmartCloud Control
Desk Next

Maximo Next

- Cloud Enabled Platform (Multi Tenancy)
- Updated Platforms
- Usability improvements
- Crews
- Service Addresses
- Mapping

TRIRIGA Energy Optimization

- Real-time energy & operating analytics
- Event filtering & root cause analysis
- Work request generation

Key

Fix-Packs/Mod Release

Update Releases

New Products

2013 Focus:

- Optimization, Mobile Applications and Analytics
- Address high-value customer requirements across multiple industries
- Continued maintenance for multiple releases

Smart Cloud Control Desk 7.5.1

Maximo Mobile 7.5.1

- Android support
- RFID

Maximo Integration for TRIRIGA Assessments

- ISM Library download

Maximo Fix-pack 7.5.0.4

Maximo ACM/Transportation 7.5.1

- Aviation/Spec 2000
- Flight Log Book
- Progressive Inspections

TRIRIGA 10.x

- Implementation accelerators
- Localization enhancements
- Lease accounting enhancements

H1 2013

Maximo Integration for TRIRIGA 1.1

- Space & Move Mgmt
- ISM Library download

Maximo Oil & Gas/HS&E 7.5.1

- Permit to Work
- Audit and Surveys

Trellis Real-time Infrastructure Optimization Platform 2.0

Maximo 7.5 Pattern for PureApplication System

TRIRIGA 10.3.x

- Enhanced browser support
- Energy Star and ESRI updates
- Phase 1 508 Accessibility;

SmartCloud Control Desk Fix-pack 7.5.1.1

H2 2013

New Mobile (phase 1)

- Mobile platform
- Android support
- Connected/Disconnected
- Maximo Work Mgmt applications

Maximo Fix-pack 7.5.0.5

Maximo Scheduler 7.5.2.0

- Automated Schedule Optimization
- Automated Route Optimization

Maximo Fix-pack 7.1.1.12

2014

Analytics

- KPI/Reporting
- Enhanced Predictive capabilities

Mobile

- Mobile platform updates
- iOS Support
- TRIRIGA, SCCD, Maximo applications
- Appl Designer
