IBM will not disclose your proprietary content, and will return or destroy your content upon the expiration or cancellation of the Services, or earlier upon your request. IBM reserves the right to charge for certain activities performed at your request or direction (such as delivering content in a specific format).

If any government imposes a duty, tax (other than income tax), levy, or fee, on this Agreement or on the Service itself, that is not otherwise accounted for in the amount payable, you agree to pay it when IBM invoices you. If the rate of goods & services tax changes IBM may adjust the charge or other amount payable to take into account that change for the date the change becomes effective.

In the event of a dispute, you cannot withhold 100% of any monies outstanding, only the percent directly relating to the disputed deliverable or service component.

This limit applies collectively to IBM, its subsidiaries and contractors. IBM will not be liable for special, incidental, exemplary, indirect or economic consequential damages, lost profits, business, revenue, goodwill, or anticipated savings.

If a third party asserts in a litigation against you that a Service acquired hereunder infringes that party's patent or copyright, IBM will defend you against that claim and pay damages that a court finally awards against you or that are included in a settlement approved by IBM, provided that you promptly notify IBM in writing of the claim, supply information requested by IBM, and allow IBM to control the defense and settlement. IBM reserves the right to modify or replace the Service with an equivalent non-infringing one or, if replacement is not reasonably available, to discontinue the Service and provide a credit for any pre-paid unexpired term. IBM

has no liability for claims that include, in whole or part, items not provided by IBM. You are responsible for any violation of law or any third party rights caused by your content or, except as provided in this paragraph, your use of the Service.

THEY REPLACE ALL OTHER WARRANTIES, INCLUDING THE IMPLIED WARRANTIES OR CONDITIONS OF SATISFACTORY QUALITY, MERCHANTABILITY, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE.

The warranties specified in this clause are in addition to any rights you may have under the Consumer Guarantees Act 1993 or other legislation which cannot be excluded or limited to the extent permitted by the applicable legislation. The Consumer Guarantees Act 1993 will not apply in respect of any goods or services which IBM provides, if you acquire the goods or services for the purposes of a business as defined in that Act.

11. Compliance with Laws

IBM will comply with laws applicable to IBM generally as a provider of information technology products and services. IBM is not responsible for determining the requirements of laws applicable to your business, including those relating to the Services that you acquire under this Agreement or that IBM's provision of or your receipt of particular Services under this Agreement meet the requirements of such laws. Neither party is obligated to take any action that would violate applicable law. Each party will comply with all applicable export and import laws, regulations, and associated embargo and sanction regulations, including prohibitions on export for certain end uses or to certain end users.

12. Termination

You may terminate a project on written notice to IBM. IBM may terminate a project if you do not meet your obligations concerning it. Upon termination, IBM will stop its work in an orderly manner as soon as practical. You agree to pay IBM for all Services IBM provides and any materials IBM delivers through the project's termination. Payment includes any charges IBM incurs in terminating contracts.

13. General

IBM may use global resources (personnel and resources in locations worldwide) and third party suppliers to support the delivery of the Service.

Assignment of this Agreement and the rights and obligations under it, including entitlements to the Service, is not permitted except to a subsidiary or to a successor organisation by merger or acquisition. Assignment by IBM in conjunction with the sale of the portion of IBM's business that includes the Service is not restricted. IBM is also permitted to assign its rights to payments without obtaining Customer's consent.

Customer agrees not to resell any Service without IBM's prior written consent. Any attempt to do so is void.

Electronic Communications – To the extent permitted under applicable law, each of us may communicate with the other by electronic means and such communication is acceptable as a signed writing. An identification code (called a "user ID") contained in an electronic document is sufficient to verify the sender's identity and the document's authenticity.

Amendment – Any amendment to this Agreement will not be effective unless agreed in writing and signed by both parties. Additional or different terms in any written communication from you (such as an order) are void.

Neither party is responsible for failure to fulfil any obligation due to causes beyond its control.

No action may be brought by either party more than two years after the cause of action arose or, for non-payment, more than two years after the due date of the last payment obligation.

The rights, duties, and obligations of each party are valid only in New Zealand except that all licenses are valid as specifically granted. Both parties agree to the application of the laws of New Zealand to govern, interpret, and enforce all of Customer's and IBM's respective rights, duties, and obligations arising from, or relating in any manner to, the subject matter of this Agreement, without regard to conflict of law principles.

If any provision of this Agreement is held to be invalid or unenforceable, the remaining provisions of this Agreement remain in full force and effect.

The Order Form and this Agreement are the complete agreement regarding the Services, and replace any prior oral or written communications, representations, undertakings, warranties, promises, covenants, and commitments between you and IBM regarding the solution. Additional or different terms in any written communication from you are void.
