IBM CICS Explorer - The smart, new face of CICS

## IBM Vision at a Glance…

Smarter Planet

- instrumented
- interconnected
- intelligent

- people
- companies, institutions, industries
- man-made systems
- nature's systems

Today's Imperatives Are…

Cost Optimization

to slash operational and maintenance expense and maximize efficiency necessary for all economic climates

+

Agility

to take advantage of new revenue opportunities and address competitive threats

To Survive… To Succeed!

Where are IT Budgets Being Spent?

"76% of I.T budgets are spent on MAINTENANCE, leaving only 24% for NEW INVESTMENTS."
--- Forrester Research

I.T. Budget

100%

76%

50%

New IT projects

Maintenance and management of existing IT apps

Time   Now   Future

IBM's Smart SOA
Powers Smarter Business Outcomes Across a Continuum

Business

Foundational	Extend End-to-End	Transform	Adapt Dynamically

Basic   *Advanced*

IT

SOA Application Infrastructure delivers the foundation for building, deploying and managing all types of applications, ensuring they deliver on business objectives regardless of the situation

The Power of a Smart SOA Application Foundation

Modernize applications

Expand client offerings using existing business data with Web 2.0

Execute high volume transactions

Reduce business risks with highly available, secure applications

Capitalize on dynamic situations
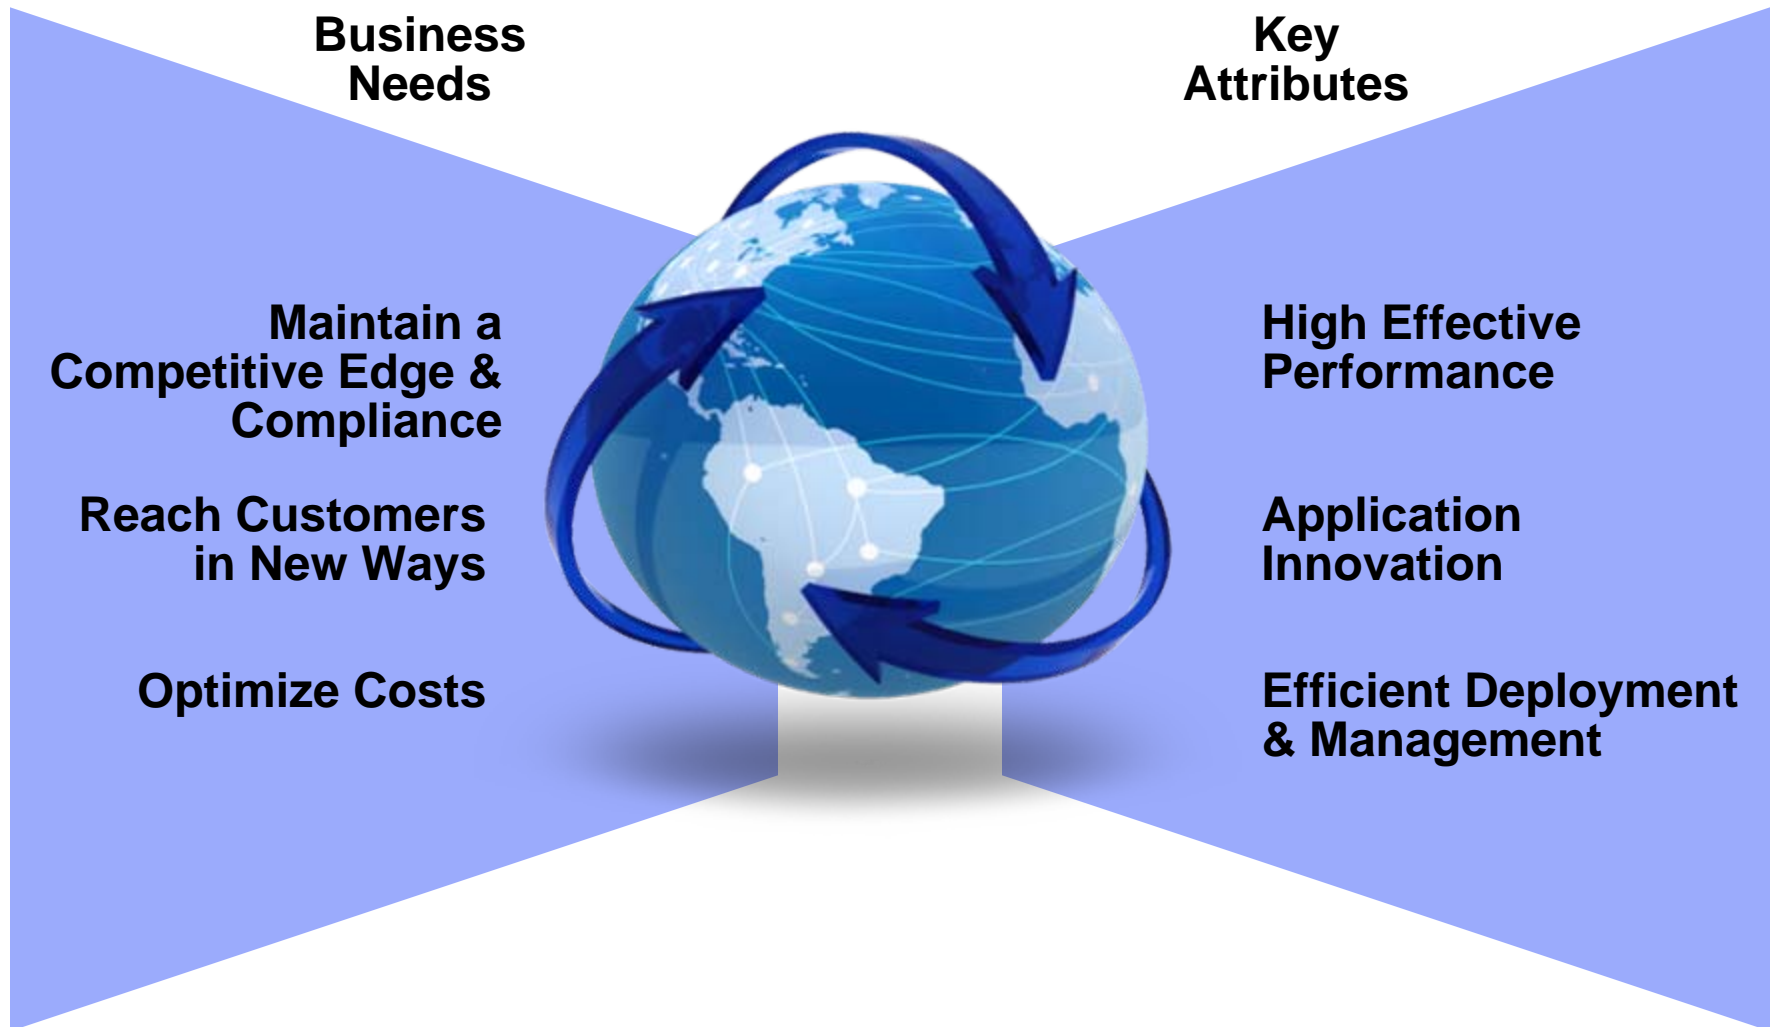

Timely insight with low cost situational applications

Manage worldwide operations

Rapidly introduce new capabilities throughout the business with centralized administration

Address your critical business needs with Smart SOA Application Foundation

Business Needs

Key Attributes

Maintain a Competitive Edge & Compliance

High Effective Performance

Reach Customers in New Ways

Application Innovation

Optimize Costs

**Efficient Deployment & Management**

Maintain a Competitive Edge & Compliance

- **Applications should be available, secure, and responsive while reducing cost**

- **Customer demand needs to be met without complex IT infrastructure**

- **Customer data must be protected**

- **Get the highest performance for the lowest cost**

- **Support more business services with fewer IT resources**

- **Prevent costly compliance breaches**

Scale-up

Speed-up

Comply

Achieve efficient application response time

Design Decisions

Implementation Decisions

Deployment Decisions
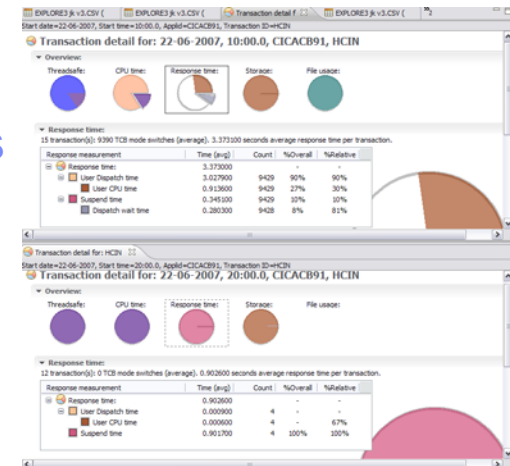

"For every phase in which a defect is left beyond the point of detection, it becomes 80 to 1,000 times more expensive to remove." Gartner

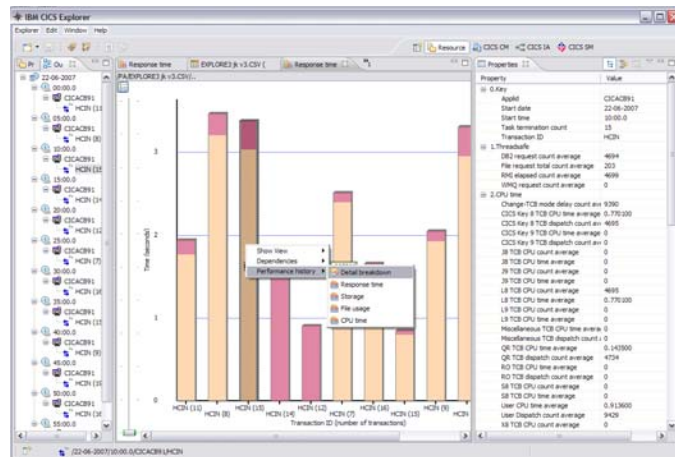

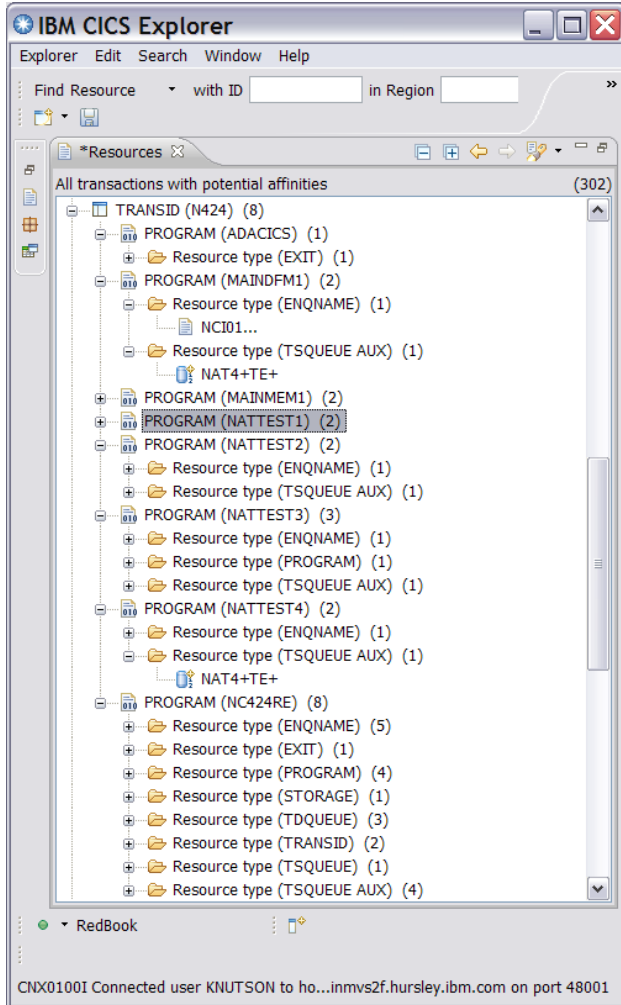

- **Look for out of line metrics**
- **Drill into performance data**
- **Compare two test periods**

Consolidate workloads - improve throughput
## *CICSPlex SM and CICS Interdependency Analyzer*

New Optimized Routing in CICSPlex SM
smoothes work distribution for higher throughput

Non-optimized
27 CICS regions
17 seconds

Optimized
9 CICS regions
15 seconds

CICS Interdependency Analyzer identifies affinities
for removal or input to CICSPlex SM

Provide insight for more flexible business control

Reach Customers in New Ways

- **Difficult to stay competitive and deliver rich user experiences?**
- **New applications need to optimize use of existing applications and services?**
- **Increasing demand for situational applications?**

- **Achieve faster ROI with SOA reusing applications and services**
- **Quickly deliver applications using Web 2.0**
- **Enable real-time access from mobile devices**

Improve customer experience with innovative communications

Reuse and extend legacy and packaged apps
CICS Interdependency Analyzer

Application Insight

Questions

- **Which programs would make good Web services?**
- **Where are my Business Event sources?**
- **Which programs use these files, queues, tables?**

Business Value:

- **Reduced risk of problems changing complex applications when under time pressure or without deep CICS skills**
- **Bring new staff up to speed quickly**
- **Deliver situational applications to broader user community**

Optimize Costs Through Efficiency

- **Need to deliver new & custom applications fast?**

- **Cost of development is rising, but budgets are declining?**

- **Geographically dispersed infrastructure is costly to manage?**

- **Use less costly development skills to build web apps**
- **Be productive with integrated tools that reuse what you have**
- **Cut operational costs with centralized application management**

# Work smart with complex CICS configurations
CICS Configuration Manager

<u>Sound like you?</u>

- **New staff?**

- **Complex CICS resource definitions?**

- **Home-grown tooling?**

<u>If so, you need …</u>

- **Smart editors - no *magic values***

- **Powerful search across multiple repositories**

- **Find orphans and duplicates**

- **Cleanup and cold-start analysis**

- **Reduces risk of downtime**

- **Accountability and control**

- **Reduce administration and tool maintenance costs**

Increase productivity with integrated tools
CICS Interdependency Analyzer, Configuration Manager, Performance Analyzer

- Reduced risk when changing complex applications

- Effective performance analysis saves MIPs and reduces costs

- End-to-end accountability

Reduce CICS CPU usage with Threadsafe
CICS Interdependency Analyzer, CICS Performance Analyzer

Problem

- **Need to access more functionality and spread out its data processing load**

- **Reduce CPU usage to cut operating costs**

Solution

- **Intuitive views**

- **Task-oriented approach, e.g. Threadsafe Analysis**

- **Drill-down into application structure**
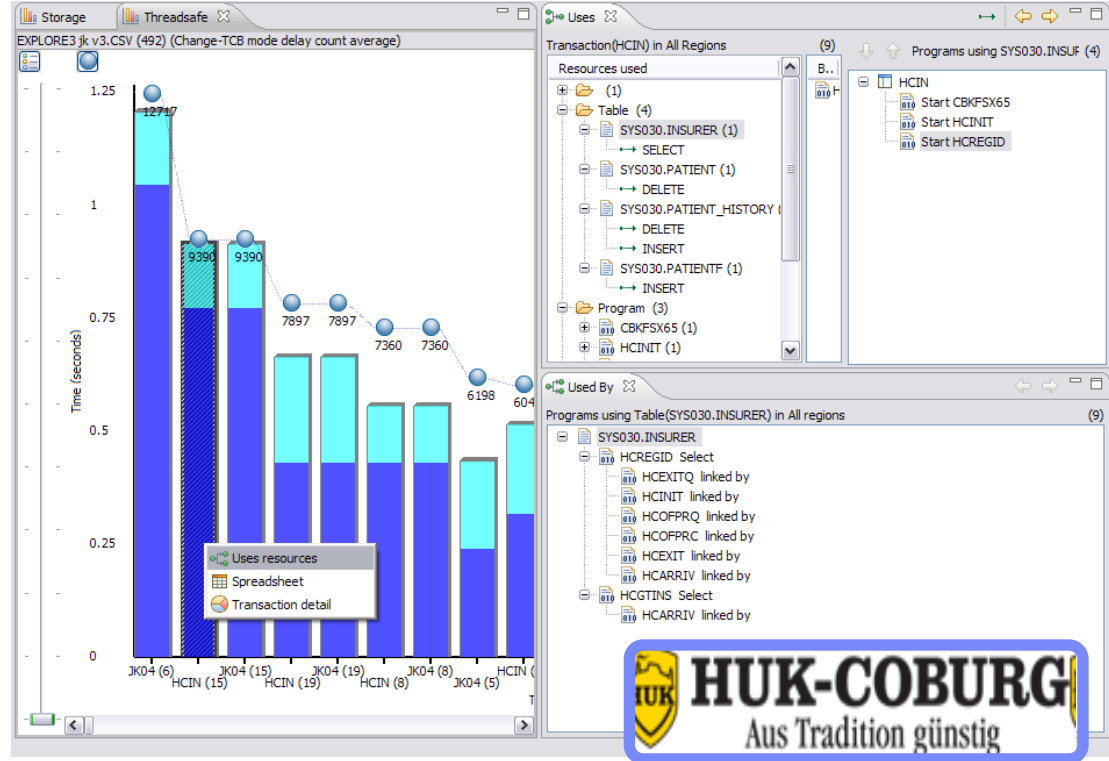

- **Reduces CPU usage**
- **Save real money**

Threadsafe - DEMO

**Click to play
CICS Threadsafe
demo from local file**

CICS TS 4.1

"Greater efficiency and reduced costs"

"Real-time visibility for smarter decisions and actions"

http://ibm.com/cics/tserver/v41/

Call to Action

- **Learn more about CICS Explorer**
  - Read the New CICS Explorer Redbook - SG24-7778-00
  - Request a CICS Smart Seminar from your IBM account rep

- **Start using CICS Explorer**
  - Download from http://ibm.com/cics/explorer/download

- **Extend the value of the CICS Explorer**
  - Move to CICS TS V4.1
  - Add CICS Tools and other plug-ins
  - Build your own plug-ins

Summary

- **Maintain Competitive Edge & Compliance**

- **Reach Customers in New Ways**

- **Optimize Costs Through Efficiency**

New CICS Explorer Redbook - SG24-7778-00

- This Redbook® focuses on the new CICS Explorer

- The first part of the Redbook overviews the CICS Explorer, along with all the CICS Tools plug-ins

- The second part of the Redbook focuses on different scenarios in which the CICS Explorer can be used, along with the CICS Tools plug-ins to resolve different problems

- http://www.redbooks.ibm.com/redpieces/abstracts/sg247778.html

CICS Development Technical Services

Helping to solve Business Problems and exploiting new Business Opportunities

Engage the IBM Hursley CICS development team to ensure that you get the maximum value from your CICS investments.

Consultants are now available via a funded services engagement directly from CICS development providing a complete range of CICS services - no one has more experience!

▪ **For more information please contact: CICSTDS@uk.ibm.com**

CICS Smart Seminars

Free customised technical agenda of CICS TS and CICS tools products
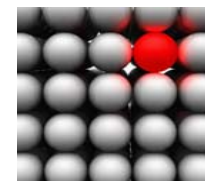

– Web Services, Events, Web 2.0, version upgrades, tooling etc.

Targeted at AD, System Programmers and Architects at customers' own location

Demonstrates how to use the new features in the latest releases to leverage existing solutions

Can be tailored to customers interests

▪ **For more information please contact: cicssem@uk.ibm.com**

Impact 2010 Highlights

Impact 2010 - The Premier Conference for Business and IT Leaders

Discover new innovative ways to work smarter and achieve business agility now. Impact 2010 provides a unique setting to bring company executives and technologists together at a single event providing a unique opportunity for them to discover how to align business objectives with IT, interact with technology and business leaders and experts from around the world and ultimately optimize their business performance and results.

A new Business Program that will focus on:

- **optimizing business processes**
- **improving decision management**
- **empowering the changing workforce, and globalization**

An enhanced Smart SOA and BPM Technology Program:

- **Dedicated with tailored workshops and hands on labs**

A bigger focus on your industry!

- **300+ industry leading experts on site**

A new Interactive Symposium

- **Bringing LOB and IT together in consultative sessions**

A new Product Technology Center offering:

- **Open labs, tech zones, and product demos**

A new and improved Track structure with:

- **200+ client speakers,50 Birds of a Feather sessions, & free certification testing**

A state-of-the art Solution Showcase Center!

Join us in Las Vegas
The Venetian Hotel
May 2 to 7, 2010
