Upcoming announcements

IBM Content
Management

e-business

- In July, 5769-RD1 V4R5 will include OD Server
 - ✓ This is an evaluation copy of the server, client needs to be downloaded from Internet.
 - ✓ When OD Server ordered, media will ship. Installation will overlay evaluation copy
- Other enhancements to V4R5
 - ✓ Operations Navigator support
 - ✓ OnDemand client
- Content Manager/400 (5769-VI1)
 - ✓ Fix to improve first-page display

IBM

OnDemand for AS/400 Enhancements PRPQ 5799-GEQ

IBM Content
Management

e-business

- AnyStore Integration Release Script
- OnDemand - VisualInfo WAF integration
- Other features (OD-IP WAF integration and OnDemand Client/Server) are being phased out.
- Customers who have existing IBM service offering contracts in place need to be transitioned manually to PRPQ and applicable LPP features.
