Description

Related announcements

The Processor Value Unit licensing for middleware is described in the following three announcements:

- Software Announcement 206-154, dated July 25, 2006, Processor Value Unit licensing for middleware available in Passport Advantage — evolving the structure to provide a foundation for the future
- Software Announcement 206-155, dated July 25, 2006, New part numbers for the processor Value Unit licensing for middleware available in Passport Advantage
- Withdrawal Announcement 906-141, dated July 25, 2006, Selected per processor Passport Advantage and Passport Advantage Express part numbers.

In addition, the multi-core licensing terms from the following announcements, are being withdrawn:

- Marketing Announcement 305-080, dated May 31, 2005, IBM middleware software licensing on x86 Architecture and selected OpenPower™ platform dual-core chips
- Software Announcement 206-048, dated March 7, 2006, IBM middleware software licensing on BladeCenter® JS21 servers with IBM PowerPC® 970 dual-core chips
- Software Announcement 206-063, dated March 28, 2006, IBM middleware software licensing on Sun servers with UltraSparc T1 chips

The effective date of the withdrawal of the multi-core licensing terms is November 10, 2006.

Ordering information

All of products in this announcement are orderable using part numbers. Information for ordering these part number products using Passport Advantage® follows. One product, Tivoli Provisioning Manager V3.1.0, may also be ordered using program numbers with feature numbers. Refer to the **List of new features** section for the program

identification numbers and the replacement feature numbers for this product.

You should order the appropriate number of processor Value Unit licenses required for each processor core on which you plan to run the software and not the number of per processor licenses.

Refer to the Passport Advantage Web site below for additional information

<http://www.ibm.com/software/passportadvantage>

Before the transition to processor Value Units, we had some programs with relatively low prices. For those programs priced less than \$1250 (U.S.) and where maintenance is usually less than \$250 (U.S.), dividing by the conversion factor of 100 would yield very small prices. As a result, these programs have been grouped into packs of 10 processor Value Units as the minimum order quantity. For example, when you need 50 processor Value Units for these programs, you will order 5 of these 10 processor Value Unit part numbers to get the required 50 processor Value Units.
