1. Support for Firmware v1 Any Build

Final candidate 8 supports all v1 builds of the custom firmware from Atmel, including build FC which includes the soft reset fix for the invalid messages issue.

2. WinXP / Win 7 32-bit Installation Instructions

Connect touch panel(s) to system. Run `OcularSetup.exe` and follow prompts.

3. Win 7 64-bit / Win 8 Installation Instructions

Final Candidate 8 has been signed by Microsoft for the following OS'es:

- Windows 7 32-bit
- Windows 7 64-bit
- Windows 8.1 64-bit

4. Silent Install

The driver includes batch files for silent installation and removal.

5. Description

The Ocular driver is divided into four pieces:

a. Windows drivers
b. Sys Tray application
c. Configuration utility
d. Supporting libraries and frameworks

All four pieces are installed by the `OcularSetup` installer. The Sys Tray application is set to run automatically at startup. A shortcut for the Sys Tray app is added to the Programs menu.

6. Production Configuration

The latest production configuration prepared by Toshiba has been provided in the same folder as the Final Candidate 8 install files.

7. New Features

1. Signed by Microsoft for all supported OS'es.

2. Always executes a reboot following install.

8. Known Issues

None.
