

Tablet and Scanner Information

This unit must be recycled or discarded according to applicable local and national regulations. IBM encourages owners of information technology (IT) equipment to responsibly recycle their equipment when it is no longer needed. IBM offers a variety of product return programs and services in several countries to assist equipment owners in recycling their IT products. Information on IBM product recycling offerings can be found on IBM's Internet site at:

Tablet Information

The IBM Wireless LAN Mini PCI Adapter installed within the IBM 7054 Mobile Tablet for Retail must be used in strict accordance with the following instructions. This product complies with the following radio frequency standards.

USA – Federal Communications Commission (FCC)

Federal Communications Commission (FCC) Statement

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense. IBM is not responsible for any radio or television interference caused by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Exposure to Radio Frequency Energy

The radiated output power of the Wireless LAN Mini-PCI Card authorized for use in the IBM 7054 Mobile Tablet for Retail is far below the FCC radio frequency exposure limits. Nevertheless, the IBM 7054 Mobile Tablet for Retail shall be used in such a manner that the potential for human contact during normal operations is minimized.

Interference Statement

An improper installation or unauthorized use may cause harmful interference to radio communications. Also, any tampering with the internal antenna will void the FCC certification and your warranty.

Scanner Information

The IBM Scanner is a Listed Accessory of the IBM 7054 Tablet.

ATTENTION

Use of controls or performance of procedures other than those specified herein may result in hazardous radiation exposure. The scanner does not contain any user serviceable parts - do not disassemble the scanner

The scanner LED emission is through the aperture identified in the following picture:

The scanner is a Class 1 LED product, according to IEC60825-1:1993+A1:1997+A2:2001. Class 1 LED products are not hazardous. Class 1 LED radiation is deemed safe to the eyes and skin under reasonably foreseeable conditions of use. The "Class 1 LED product" statement is located on the scanner as shown in the following pictures:
