Lotus Mobile Product Roadmaps

(Demos throughout)

Lotus knows.

Smarter software for a Smarter Planet.

IBM® Lotus® Domino® has a rich client ecosystem

Email, PIM, and more...

Integrated collaboration on multiple devices, any network

Offline / Online capabilities

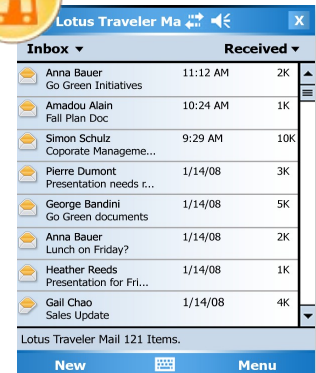

Clients managed centrally, easier administration

Supports role-based deployment

Multi-OS support

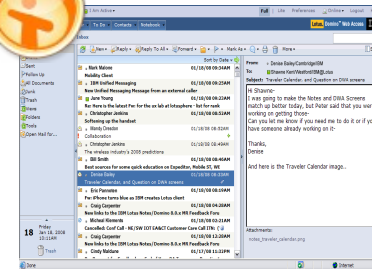

Out of the box features, cost effective and innovative

Integrates with existing systems and applications

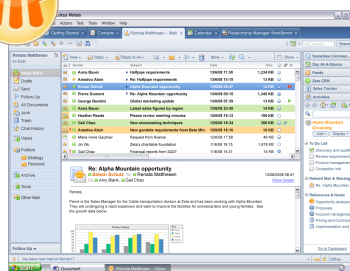

IBM Lotus Notes Traveler

IBM Lotus iNotes

IBM Lotus iNotes

IBM Lotus Notes

Lotus knows.

Smarter software for a Smarter Planet.

IBM Lotus Notes Traveler

Push email for Nokia Symbian, Windows Mobile, and Apple iPhone devices

Automatic wireless delivery

Email (including attachments)

Calendar

Address Book

Journal

To Do Lists

2-way synchronization

Over-the-air client installation

Email Folder support

Customizable alerts for new email

Encrypted mail

Policy administration and monitoring *

Remote wipe and device lock

Corporate directory lookup **

Works over all wired / wireless connections (CDMA, GPRS, GSM, WiFi, etc.)
Integrates with Lotus Mobile Connect for secure data channels

(*) features NOT currently available on the Apple iPhone

(**) feature NOT currently available on Nokia Symbian or Windows Mobile

Lotus Notes Traveler Device Support

Windows Mobile 5/6/6.1 Professional and Smartphone devices

Nokia Series 60 3rd edition

Nokia Series 60 5th edition devices (Touchscreen)

Apple iPhone and iPod Touch Devices

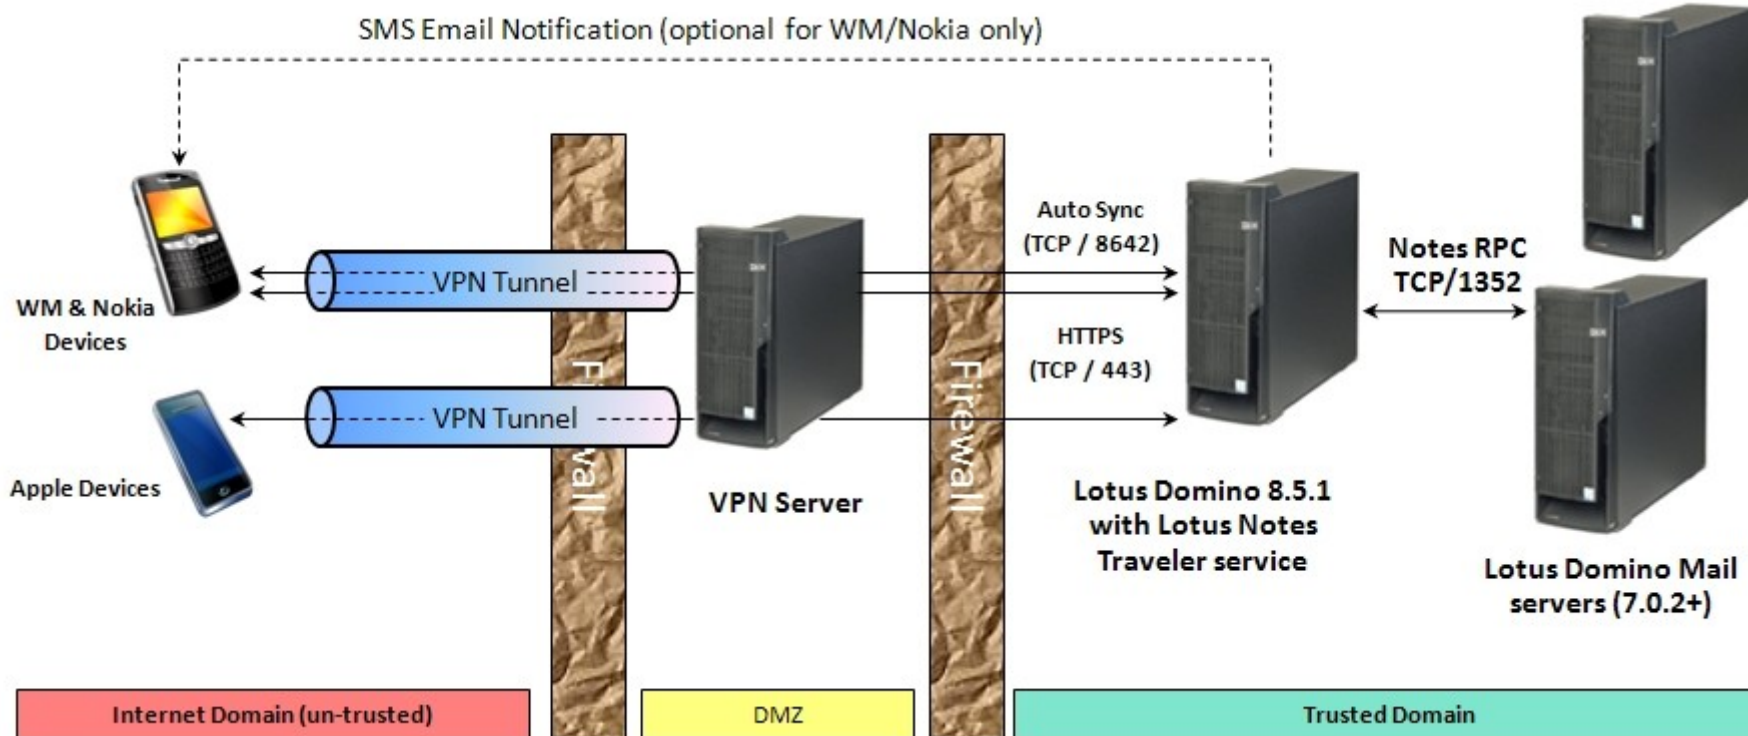

Lotus Notes Traveler Server

- Lotus Notes Traveler runs as a service on the Domino server
- Operating System
 - Windows® 2003/2008 Server (32-bit)
 - Windows 2003/2008 Server for Intel® 64-bit
- Variety of server topologies possible including:
 - Using VPN
 - Reverse proxy
 - Domino server with Lotus Notes Traveler component in the DMZ

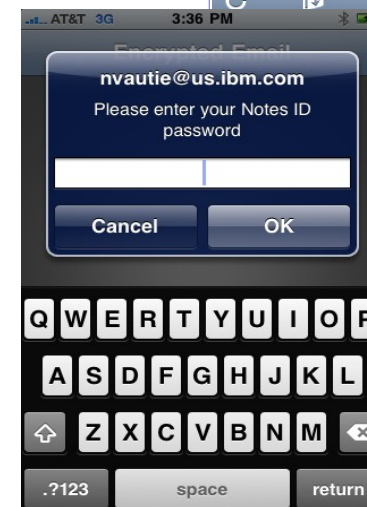

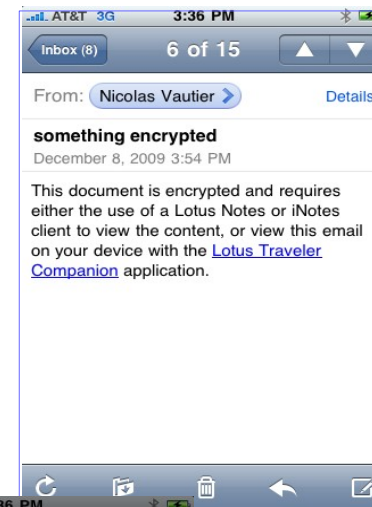

Choosing a network topology

Virtual Private Network

Lotus Notes Traveler Companion

- iPhone application
- Allows user to read Domino-encrypted mail
 - Built on same design as Nokia and Windows Mobile
 - Requires Notes ID to be accessible from Lotus Notes Traveler server (in ID vault or mail file)
 - Uses link inside mail to jump to Companion
 - User supplies Notes ID password
 - Lotus Notes Traveler server does decryption
 - Does not store encrypted mail on the iPhone
- Available for free from iTunes App Store
 - “As is”, unsupported
 - Licensed to end user, not part of enterprise license
 - Requires Lotus Notes Traveler server update
 - Included in 8.5.1 Fixpack 1

Lotus knows.

Smarter software for a Smarter Planet.

IBM Lotus iNotes® ultra-light mode

Real-time access to Lotus Domino mail, calendar and contacts from iPhone/iTouch

Visually appealing user interface

Consistent with Lotus Notes

Follows Apple iPhone UI design guidelines

Quick and crisp Day-At-A-Glance calendar view

Built on Lotus iNotes server infrastructure

HTML page generation

Operation workflow

HTML-only fallback for Firefox

Meets accessibility guidelines (on desktop via Firefox)

Lotus knows.

Smarter software for a Smarter Planet.

Lotus Sametime® for mobile devices

Instant messaging and collaboration for popular Mobile devices

Capabilities

Wireless instant messaging

Contact List and Business Cards

Quick Find

Single/Multiple Chat

Chat History

Status Alerts

Announcements

UC²
