

INVITATION

Exclusive Business Partner Programme 2 June 2009 - Berlin, Germany

Dear Valued Business Partner,

We are delighted to invite you to attend the Business Partner Programme on 2 June, which is offered to all Business Partners who are registered to attend the **Information On Demand EMEA Conference 2009** and which will be held at the Estrel Convention Center, Berlin, Germany from 2 to 5 June. This Programme is free of charge for all Business Partners participating in the Conference and is designed to provide critical business information to help maximise business results, improve sales strategies and build on existing skills.

Agenda

Tuesday, 2 June 2009

We will start at 13.00 hrs with lunch, followed by a general session. You will then break out into 5 different tracks from 14.55 until 17.30 hrs. The breakout tracks will cover Leveraging Information On Demand and the individual segments within Information Management, IBM Software.

NEW: Information Management Innovation Awards

We are excited to be presenting Information Management Innovation Awards for the first time in the Europe, Middle East and Africa region during the special Business Partner Appreciation Reception from at 18.00 - 20.45 hrs. on 2 June at an impressive venue – the Axica.

IBM Business Partners from all PartnerWorld & Cognos Partner communities are eligible for entry in the 2009 Information Management Innovation Awards. For more details, please visit the Conference website. But, please note, nomination closes on 1 May.

For questions and additional information, contact Melanie Bessem: mtb.bessem@nl.ibm.com

Looking forward to seeing you in Berlin,

Tony Rummans
Vice President
Information Management Software
Southwest Europe IBM

Ivo Körner
Vice President
Information Management Software
Northeast Europe IBM

Exclusive Business Partner Programme

Tuesday, 2 June 2009 - Berlin, Germany

13.00 - 13.45 Lunch in the IOD Experience Foyer (Estrel Convention Centre)				
Time	Track	Session Title	Speaker	Session Information

13.50 - 14.50		Business Momentum and Growth Opportunities	Ambuj Goyal, General Manager, IBM Information Management Software, IBM Software Group	Presented by our Information Management leadership team, the General Session will outline the business momentum and growth opportunities in Information On Demand for IBM Business Partners, IBM's sales and channel strategy and key initiatives, as well as an overview of the IBM Deep Embed and OEM strategy and the key sales and marketing tools Business Partners can leverage.
		Information Management Sales Strategy & Channel Initiatives	Neil Isford, Vice President, Worldwide Sales, IBM Information Management Software, IBM Software Group	
Deep Embed OEM Strategy	Rob Thomas, Vice President Worldwide Business Development, IBM Information Management Software, IBM Software Group			
14.55 - 15.35	Leveraging Information On Demand (Room 1)	Driving Growth & Innovation: Leveraging Information for Smarter Business Outcomes	Andrew Warzecha, Vice President, Information Management Strategy, IBM Software Group Tom Inman, Vice President, Information On Demand Acceleration, Information Management Software, IBM Software Group	The world is flatter. The world is smaller. And the world is becoming smarter. With an explosion in the volume, variety and velocity of information, how do businesses use information to make more intelligent decisions? In times of change an Information Agenda approach accelerates your organization's ability to share and deliver trusted information across all applications and processes. Attend this session to learn more about IBM's strategy on Information Agenda and how we're helping organizations leverage information for smarter business outcomes.
	Leveraging Information On Demand (Room 12-Lyon)	The Deep Embed program	Larry Weber, Deep Embed Channel Marketing, Developmental Job Role, Information Management Software, IBM Software Group	At the core of the „deep embed“ approach is an OEM arrangement, where IBM embeds software technology into a Business Partner's application or solution. Combine a deeply optimized solution, powered by InfoSphere for Trusted Information, with enhanced market planning and sales execution, and you have a partnership model that is designed to drive significant revenue for both parties.
	Data Management (Room 3)	Informix Warehouse - Unlock Greater Business Value from your Data at Lower Cost	Cathy Elliott / Terri Gerber, Strategy & Planning Marketing Manager, Information Management Software, IBM Software Group ; World Wide Informix Sales Manager, Information Management Software, IBM Software Group	Informix Dynamic Server (IDS) provides a superior, reliable database platform that delivers blazing performance, scalability, reliability and low cost administration. With the Informix Warehouse Feature, customers can easily design and deploy a data warehouse that leverages their existing Informix investment.
	InfoSphere (Room 11-Paris)	InfoSphere Warehouse	Andrew Friedrich, Marketing Executive InfoSphere Warehousing	Come see how IBM provides a unified, powerful data warehouse delivering access to structured and unstructured information and operational and transactional data in real time. Let's discuss how you can easily design and deploy a data warehouse that leverages their existing customer investments.
	Enterprise Content Management (Room 2)	Information Management Worldwide Client Support & Education: Partnering for Client Success, Satisfaction & Loyalty	Debbie Landers, Vice President Worldwide Client Support, Information Management Software, IBM Software Group	Together with our Software ValueNet (SWVN) partners we strive to build a strong, integrated ecosystem to enable us to jointly drive customer satisfaction and loyalty with our shared end-customers. This session by Debbie Landers, Vice President WW IM Client Support & Education, provides for a unique opportunity to discuss the following for all support providing partners: - Incremental information about our new Software ValueNet Support Provider model, and what it will mean to your organization to be a SWVN Support Provider - Benefits and opportunities with partnering in the delivery of Client Support for all partner types - Latest Education and Premium Support offerings enabling your success
Business Intelligence & Performance Management (Room 4)	The IBM Cognos Advantage	Mel Zeledon & Rupert Bonham-Carter, Global Alliances and Channels Executive - IBM Cognos Software, Information Management Software, IBM Software Group ; EMEA Business Partners Executive - IBM Cognos Software, Information Management Software, IBM Software Group	Come and attend this session which details the value and benefits of the IBM-Cognos solution and what's in it for you, as an IBM Business Partner. Learn about the potential that business intelligence and performance management solutions have to deliver tremendous value to your customers. Listen to examples of how partners around the globe are embracing business intelligence and performance management as the next driver of growth, for their businesses. Learn more about the new partnering opportunities and the benefits available under IBM Software Valuenet as well as get answers to all of your questions.	
15.35 - 16.05 Coffee Break at the IOD Experience Foyer				
16.05 - 16.45	Leveraging Information On Demand (Room 1)	Increase Revenue & Client Value with an Information Agenda	Bob Keseley, Vice President Worldwide Sales, Worldwide Information Agenda Executive, IBM Software Group Rob Thomas, VP Worldwide Business Development, IBM Information Management Software, IBM Software	Organizations can create an Information Agenda to unlock the business value of information and transform information into a strategic asset. CIO's now have a blueprint for an approach that guides the strategy, journey, governance and use of Information for competitive advantage. IBM's Foundation Tools, Information Accelerators, Information Agenda Guides & Workshops help organizations develop roadmaps with highly justified projects to meet strategic business imperatives. Attend this session to learn how an Information Agenda can help your organization deliver increased sales and client value with IBM's proven approach and end to end capabilities.
	Data Management (Room 3)	DB2 - Expand Market Share, Reduce Costs & Increase Profits.	Conor O'Mahony, Program Director, DB2 Product Marketing, Information Management Software, IBM Software Group	Learn how new compatibility features coupled with autonomies and compression can open up new markets for your solutions while keeping costs low.
	Data Management (Room 12-Lyon)	Optim - Product Portfolio and Strategy	Aidan Mongan, WorldWide Optim Channel Sales Leader, Information Management Software, IBM Software Group	Are your clients asking for you to deliver solutions that address: Cost reduction; Getting more out of their existing application investment, Improved application availability. If they are not they should. Learn about one of the fastest growing solutions in Data Management - Optim.
	InfoSphere (Room 11-Paris)	InfoSphere - The Synergy Advantage for delivering Trusted Information	Jim Welch, Vice President InfoSphere, Information Management Software, IBM Software Group	Considered separately, each component of the InfoSphere portfolio provides an industry leading value proposition. Considered together, InfoSphere is much more than the sum of its parts. It is an industry unique platform for the delivery of trusted information. This session will provide insight into the InfoSphere vision, strategic direction and the current portfolio roadmap
