

Jeskell

Company overview: Established in 1991, Jeskell is an IBM Premier Business Partner focused exclusively on delivering IT solutions -- based on IBM products and services -- to commercial enterprises, educational institutions, and government organizations nationwide. The company is one of only a few IBM partners fully certified for all IBM platforms, from mainframes to UNIX servers to high-end Intel-based servers. Headquartered in Silicon Valley, Jeskell has offices across the US, is regularly in the top 10 percent of all IBM business partners, and consistently ranks among the leaders in IBM customer satisfaction surveys
