

Earth Science Chapter 5: Earth's Interior

Answer the following questions as either true or false. You may write "T" for true and "F" for false. Remember that answers that cannot be read will be counted as incorrect.

1. _____ Earth's surface always stays the same.
2. _____ One of the two main types of evidence is direct evidence from rock samples.
3. _____ To study Earth's interior, geologists simply dig a big hole all the way to China.
4. _____ The three main layers of the earth are the crust, the mantle and the core.
5. _____ As you move toward the core of the earth, the temperature and pressure decrease.

Answer the following question. Remember that answers that cannot be read will be counted as incorrect.

6. Define the following terms:

A. Crust

B. Mantle

C. Core
